

ZERO-GRAVITY WORKSTATION

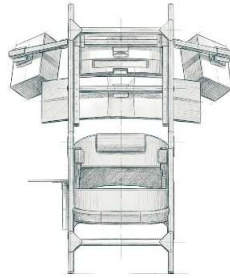

ARK PRO · TRIPLE SCREEN RIG (3x32")
& 40" OVERHEAD SCREEN

reclined zero-gravity work position

flexible gear positioning

studio speaker set-up

Work weightless.

adjustable reclined workstation that wraps monitors, keyboard and mouse around your body held in zero-gravity neutral posture.

The Levus Ark places your screens, laptop, keyboard and mouse around you so you can work in a reclined, neutral body posture. It relieves vertical spinal pressure, spreads body weight along the full length of the body, and opens the hip-spine angle to 120° — for sustained, focused computer work without back, neck, arm or eye strain.

02 FEATURES & COMPONENTS

ARK

- Reclined zero-gravity posture: open **120° hip-spine angle**
- Adjustable base with **two working-angle modes**
- Hard-foam neck-roll headrest
- Hard-foam mattress on slat suspension with lumbar-curve amplifier and heavy-duty faux-leather cover
- Monitor mount bar — adjustable screen distance, height and viewing angle; VESA 75/100/200 + Samsung Odyssey Ark 55" screen adapter
- Side table with adjustable height & angle for the mouse
- Retractable keyboard table with an ergonomic cutaway for wrist support
- Assemble & dismantle without deterioration of build quality. Small, lightweight and compact parts when dismantled — practical if you move places

ARK PRO

ARK + EXTRAS

- Hard-foam triangular ergonomic handrest for additional elbow support
- Triple monitor rig** — standard mount bar with two side extenders
- Three VESA 75/100 pivot mounts; left & right mounts can also carry studio speakers

Everything in **ARK**, scaled for a multi-screen creative and engineering workflow — surround yourself with multiple displays or a combination of screens and professional studio speakers without leaving neutral posture.
