Alex Sandgren

Technical Artist Student

I am a technical artist student who is currently studying at Yrgo. I am a person who bridges art and programming to deliver high quality visuals and experiences. Through smart solutions, like developing tools, writing shaders, optimising performance, and building animation rigs, I am able to simplify and streamline the creation of images and animations of 3D models and environments.

Education

Yrgo

Industrial Technical Artist
Sep 2025 - May 2027

Burgårdens gymnasium

Social Sciences - Behavioral Sciences
2018 - 2021

Work Experiences

Tetiko AB

Participant
Mar 2022 - May 2025

A job training program with a focus on IT. I learned many different software programs within graphics design, 3D graphics, CAD, video editing and coding. I also learned how to use 3D printers to create different models and tools.
