

Ref.No.: 105-01-59/19-07

Zagreb, 5th April 2019.

Based on the T&E Protocol 15044:2009, Test and Evaluation of Demining Machines, and the item 7.7. of the HRN EN ISO/IEC 17065:2013 norm, HCR-CTRO d.o.o. has issued the following:

CONFORMITY CERTIFICATE

for

GCS-200 demining machine,

Testing of which was ordered by Global Clearance Solutions AG,
Schwerzistrasse 4, 8807 Freienbach, Switzerland

The conformity assessment was conducted from 27th March-1st April 2019. at the Cerovac Test site, and the following was concluded:

1. **GCS-200**, a medium demining machine, is suitable for mechanical treatment of suspected hazardous area
2. The machine uses **tiller** as a working tool. The machine is operated by remote controls.
3. The machine can be used in soil classes I to V up to the depth of 20 cm
4. The machine removes low, medium and high vegetation, individual trees of diameter up to 10 cm
5. The machine neutralizes all types of antipersonnel mines up to the depth of 20 cm
6. The machine neutralizes antitank mines
7. The machine has achieved the following results:

SOIL TYPE	Average depth (cm)	Efficiency (m ² /h)
TOPSOIL	23,28	1.251,66
SAND	28,44	1.303,45
GRAVEL	23,89	1.317,07

On the basis of the above stated, the machine is approved for operation in humanitarian demining activities in line with testing results.

The ordering party may submit their written comment/complaint on this Conformity Certificate within seven (7) days from the issuance date.

Authorized person:
Katarina Markt, Director
HCR-CTRO d.o.o.
