

INZAMAM UL HUDA

B.Tech Information Technology Student | AI Trainee | Web Developer

Kolkata, India | 9046100657 | inzamamulhuda5@gmail.com | LinkedIn: [linkedin.com/in/inzamamulhuda5](https://www.linkedin.com/in/inzamamulhuda5) | GitHub: github.com/inzamamulhuda5 | inzamamcv.com

PROFESSIONAL SUMMARY

Motivated B.Tech Information Technology student with part-time AI Trainee experience and hands-on web development experience for a UK-based company. Building a practical foundation in Large Language Models (LLMs), generative AI, prompt engineering, and AI agent workflows through AI training work, college coursework, Google Developers' Build with AI Bootcamp, and personal projects. Detail-oriented, comfortable following detailed instructions, reviewing AI-generated outputs, and working independently in remote environments.

EXPERIENCE

AI Trainee (Part-Time) | Outlier AI | 2026

- Participated in AI training tasks involving Large Language Models (LLMs), reviewing AI-generated outputs against project-specific guidelines and quality criteria.
- Applied careful reasoning and attention to detail to assess responses for accuracy, relevance, clarity, and instruction-following.
- Worked independently in a remote, asynchronous environment while following detailed task instructions and maintaining consistent quality.

Junior Web Developer | 9eSIM (SIMLINK LTD, United Kingdom) | Apr 2026 - Sep 2026

- Built 13 responsive landing pages using HTML and CSS, with layouts designed for both desktop and mobile devices.
- Implemented page layouts, visual design, and UI elements that supported product promotion and marketing activities.
- Worked remotely, followed project requirements carefully, and delivered assigned tasks on schedule during a six-month engagement.

EDUCATION

Institute of Engineering and Management, Kolkata | 2026 - Present

- Bachelor of Technology (B.Tech) in Information Technology | First Year
- Relevant coursework includes Artificial Intelligence, with additional self-directed learning in generative AI and software development.

TECHNICAL SKILLS

AI & LLMs: Large Language Models (LLMs), Generative AI Fundamentals, Prompt Engineering, JSON-based Prompting, AI Agent Workflows

Web Development: HTML, CSS, JavaScript (Basics), Responsive Web Design

Tools & Platforms: Git, GitHub, Canva, Framer

Core Skills: Analytical Reasoning, Attention to Detail, Instruction Following, Independent Work, Remote Collaboration

PROJECTS

PixelPioneers | AI-Assisted Medical Report Analysis Platform

- Built an AI-assisted platform for analyzing medical reports as a college hackathon project; live at pixelpioneers.vercel.app.
- Won 1st Runner-Up at the IEM HEALS Hackathon for the project.

AI Agent Workflow | Build with AI Bootcamp (Google Developers x H2S)

- Built and tested simple AI agents hands-on, applying generative AI concepts to create structured automated workflows.

Backunit AI | AI Employment Verification Agent - Concept & Prototype

- Prototyped an AI agent concept for employment verification, with a defined workflow and user journey for an enterprise automation use case.

HuddleCodes | Agency Website

- Independently designed and developed a responsive agency website using HTML and CSS, with a focus on clean UI and cross-device usability. Live: huddlecodes.com

Hiklary | AI Business Website

- Independently designed and developed a responsive front-end for an AI business website using HTML and CSS. Live: hiklary.com

CERTIFICATIONS & COURSES

Build with AI Bootcamp - Google Developers x H2S, Kolkata (2026) | Credential:
