

Our theory of impact: How we'll try to make change happen

Catalysing Action

A new foundation that is thoughtful, caring, pragmatic, collaborative, humble and responsive

Engage

Drive additive and coordinated action between funders

Enable

Invest in mission-aligned and evidence-informed people and work within a focus area

Evolve

Generate and share mutual and continuous learning

Activities

Building blocks that we focus on...

Strengthening Ecosystems

Building productive partnerships

Shared vision for aspirational future

Funding practices maximise impact from available resources, are relevant and continuously improved

Widen access and deepen participation for **impactful and preventive services**

Direct outcomes

...improve practice within ~5 years...

Transforming Systems

To create the conditions for change

Better practices, policies, and behaviours are more widely adopted

More resources available to be **intentionally** shared and deployed towards high-impact areas

Diverse **changemakers are resilient and independent**, with the power, skills, networks & funding to realise vision

Appropriate replication and scale is endorsed and supported

Long-term outcomes

...lead to change in the wider system over ~10+ years...

Collective Futures

So that the needs of our society are better met by existing & new resources

Communities have the power and resources to positively shape their own futures

Impact

...and ultimately embed lasting change for society
