

Tender ladder 340 standard

Material: Carbon fiber, AISI 316 stainless steel mirror polished

2000000244

Description

The Xquip tender ladder is safe and robust, yet light and foldable so that it can easily be stowed away.

The Xquip yacht ladder is manufactured entirely from carbon fiber. It is available in matt or clearcoat finish, or painted in any desired colour.

We offer padded storage bags and / or wall mounts to be able to store the ladder neatly.
