Megan Kaylor Bosson

Who is Megan Kaylor Bosson?

A curious young creative with a brightly burning passion for intuitive and effective design solutions. My time spent so far in this fast-paced industry has provided me with a working style that is versatile and malleable.

I particularly excel in the design of mobile apps, admin portals, and e-commerce. I also have a geeky fondness for design systems, and am a big believer in the creation, implementation and maintenance of design systems in order to streamline design work and achieve ultimate levels of consistency.

Skills

mobile app design admin portals

product audits design systems

project leadership design for dev

website design e-commerce design

retainer product design POS

Education

January 2018 - November 2021

**BA Interaction Design &
Communications Design
(Double Major)**

Graduated with 2 Distinctions

2017

Elkanah House High School

Matriculated with 3 Distinctions

Experience

January 2024 - Present

Freelance Designer, MegKaylor Creative

March 2023 - January 2024

Intermediate UX/UI Designer at Specno

- Lead designer within project teams
- Design for development, particularly mobile apps and admin portals
- MVP, website, & concept validation design for startup clients
- Long term retainer design for corporate clients with project management
- Client communications & expectation management
- Review of teammates work

Additional sub-roles

- Onboarding Facilitator - I created and ran the onboarding for our new juniors.
- Knowledge Facilitator - The first in the team, this role entailed perpetuating and encouraging continuous learning throughout the team via workshops and other means of knowledge sharing.

January 2022 - April 2023

Junior UX/UI Designer at Specno (full-time)

Additional sub-role

- Design System Designer - I spent 8 months working on our in house design system; a responsibility that ran parallel to my usual responsibilities as a designer.

July 2021 - January 2022

Junior UX/UI Designer at Specno (part-time)

Part time junior designer role while completing my studies

June 2021 - July 2021

UX/UI Design Intern
