The Switch to TeamLinkt

Regina Youth Flag Football League was juggling multiple platforms and manually updating parents and coaches just to keep a season running, limiting how many teams the league could realistically support.

Centralizing communication, scheduling, rosters, and registration onto TeamLinkt changed that. As Mike Thomas puts it, comparing TeamLinkt to what came before is no contest: "way better, without a doubt, the best move we ever made."

"TeamLinkt has made our lives in the RYFFL so much easier. It has put communication, scheduling, and rosters all in one easy-to-use application where coaches, parents, and players can connect."

Mike Thomas
League Convenor, Regina Youth Flag Football League

- ✓ One Platform. No More Juggling.
- ✓ Room to Grow Without Losing Quality
- ✓ Fewer Errors, Faster Response Times
- ✓ Clear Data, Better Decisions

The Results

Today, Regina Youth Flag Football League runs its entire season on one platform instead of several. The league set out to grow without letting admin become the bottleneck. Growth usually comes at the cost of organization. This league isn't paying that price.

- ✓ Participation, teams, league data tracked in one place, not pieced together by hand.
- ✓ More coaches, more families, new divisions, all without losing the quality of experience players and families expect.
- ✓ Time once spent managing tools now goes into the sport itself.
- ✓ The numbers back it up: faster scheduling, stronger engagement, and real savings across the board.
