COMPANY OVERVIEW

WHO WE ARE

Turning Waste Into Value

Chenab Scrap and Metal Waste is a Dubai based company specializing in scrap trading, waste management, recycling and responsible material recovery.

We combine efficient collection, organized material sorting and sustainable recycling practices to help businesses and communities manage waste more responsibly. From ferrous and non-ferrous metals to plastics, paper, cardboard, glass and selected hazardous materials, our solutions are designed to recover value while reducing unnecessary landfill waste.

Our approach connects collection, transportation, recovery, recycling and responsible disposal into a practical waste-management solution for our clients.

We serve businesses across Dubai with flexible collection solutions designed around their material types, operational requirements and collection schedules

OUR APPROACH

Collect →

Sort →

Recover →

Recycle →

Reuse →

ABOUT CHENAB

CLEANER OPERATIONS THROUGH SMARTER RECYCLING

At Chenab, we believe that waste should not simply be discarded when it can be recovered, recycled and returned to productive use. Our operations focus on responsible scrap collection and material recovery, helping businesses turn unwanted metal and plastic waste into valuable resources.

We combine efficient collection, modern material recovery and eco-focused practices to provide practical solutions that are clean, safe and responsible. From individual material streams to larger commercial and industrial requirements, we aim to make waste handling more efficient while supporting a more circular approach to resource management.

VISION & MISSION

OUR VISION →

A Cleaner Future Through Responsible Resource Management

To lead the UAE's recycling industry by transforming scrap management through innovation, sustainability, and environmentally responsible practices that reduce landfill impact and support long-term environmental well-being.

OUR MISSION →

Making Waste Management Smarter, Safer & More Sustainable

To deliver reliable, sustainable, and efficient scrap and metal recycling solutions that help businesses across Dubai maintain cleaner, safer, and more responsible operations through fair trading and proper material handling.

CEO STATEMENT

AHADULLAH BATT
Founder & CEO

At Chenab Scrap & Metal, we are committed to excellence in metal and plastic recycling and to creating meaningful value from materials that would otherwise become waste. We believe that responsible waste management is not only an environmental responsibility but also an opportunity to conserve resources, support sustainable industries, and contribute to long-term economic growth.

Our commitment to sustainability and innovation drives us to continuously improve the way we collect, manage, recover and recycle scrap materials. By transforming waste into valuable resources, we help reduce environmental impact while supporting the principles of a circular economy.

As we continue to grow, our focus remains firmly rooted in reliability, responsible practices, quality service and environmental stewardship. We aim to build lasting relationships with our clients and partners by delivering efficient recycling solutions that create value for businesses, communities and the environment.

At Chenab, we see every piece of scrap as a resource with renewed potential. Our vision is to contribute to a cleaner, more sustainable future by making responsible resource recovery an essential part of the way we do business.

CORE FOCUS & VALUES

CORE FOCUS

Sustainability

Reducing waste and supporting responsible resource recovery.

Efficiency

Organized collection, handling and material sorting.

Responsibility

Safe and environmentally conscious waste management.

Value Recovery

Returning recyclable materials to productive use and the supply chain.

OUR VALUES

Responsibility

We treat waste management as an environmental responsibility, not simply a commercial activity.

Reliability

We focus on dependable collection, handling and service.

Sustainability

We prioritize recovery and recycling wherever practical.

Efficiency

We aim to maximize material recovery while minimizing waste.

Safety

We place safe handling and responsible disposal at the center of our operations

OUR JOURNEY

FROM SCRAP TRADING TO INTEGRATED RESOURCE RECOVERY

■ 2018 – FOUNDATION

Chenab Scrap and Metal was established in the United Arab Emirates, initially specializing in copper trading. The company built its foundation around quality, reliability and excellence within the scrap industry.

■ 2019 – EXPANSION

The company expanded its portfolio beyond copper to include plastic, ferrous and non-ferrous metals, diversifying its offerings to meet changing market and client requirements.

■ 2024 – GROWTH

Chenab expanded its trading portfolio to more than 50 material categories, covering metals, plastics and other recyclable materials, while continuing to develop its focus on innovation and sustainability.

■ TODAY

Today, Chenab's website presents a broader service model covering scrap collection, waste management, recycling, transportation, hazardous waste disposal and sustainable material trading.

OUR SERVICES

INTEGRATED SCRAP & WASTE MANAGEMENT SOLUTIONS

Chenab provides a range of services designed to manage waste from collection through recovery, recycling, transportation and responsible disposal.

Scrap Collection	Waste Management	Heavy Truck Rental	Hazardous Waste Disposal	Recycling Solutions
We provide reliable scrap collection across every major material stream, helping businesses recover value from what they'd otherwise discard. Our process focuses on accurate sorting and responsible, standards-based recycling from the moment materials leave your site.	We provide comprehensive waste management services designed to keep your site clean and your operations compliant, covering everything from daily general waste to large-scale construction debris.	We offer dependable heavy truck rental for scrap transport, site clearance, and large-scale material movement — giving your team the right vehicle for the job, when you need it.	We provide professional hazardous waste disposal services designed to safely manage and eliminate potentially harmful materials. Our solutions follow strict environmental and safety standards, ensuring hazardous waste is handled responsibly to protect people, property, and the environment.	We provide dedicated recycling services that turn collected plastic, paper, and material scrap into resources ready for reuse, powered by smart sorting and processing methods built for accuracy and low environmental impact.

OUR PROCESS

SIMPLE STEPS. SMARTER SCRAP MANAGEMENT.

01 — Material Assessment

Every successful recycling process begins with understanding the material. We assess the type, quantity and nature of the scrap to determine the most suitable collection and handling approach. This allows us to plan the required resources, transportation and collection schedule according to the specific requirements of each client and site.

02 — Collection & Pickup

Once the requirements are assessed, our team coordinates the collection and pickup of materials according to the agreed schedule. Scrap is handled efficiently and sorted based on its material category, either at the collection site or at the appropriate facility. Our focus is on making the collection process organized, dependable and convenient for our clients.

03 — Recycling, Disposal & Resale

Following collection and sorting, materials are directed toward the most appropriate recovery pathway. Recyclable scrap is processed for recovery and recycling, while materials requiring disposal are handled through the appropriate channels. Where applicable, recovered materials are traded and returned to the supply chain, helping maximize resource utilization and reduce unnecessary waste.

THE RESULT

Collection

Sorting

Recovery

Recycling

Reuse

WHY CHENAB

WHY PARTNER WITH CHENAB?

Integrated Solutions

We bring collection, transportation, recycling, trading and responsible disposal together under one reliable service partner, creating a simpler and more efficient waste-management experience.

Material Expertise

Our experience covers a broad range of ferrous and non-ferrous metals, plastics and recyclable materials, allowing us to handle different material streams with the right approach.

Responsible Recycling

We focus on recovering and recycling valuable materials wherever possible, helping reduce unnecessary landfill waste, conserve resources and give discarded materials a renewed purpose.

Flexible Collection

Our collection services are designed around each client's operational requirements, with daily, weekly, bi-weekly or customized schedules to ensure convenient and consistent waste handling.

Safe Handling

Safety and responsible handling are integral to our operations. We focus on appropriate collection, transportation and disposal practices to protect people, property and the environment.

Sustainability

We transform waste into valuable resources while promoting responsible resource recovery, reducing waste and supporting a more sustainable and circular economy.

Transparent Trading

We believe in fair, clear and reliable material trading. Our approach helps recovered materials move efficiently back into the supply chain while building long-term value for our clients and partners.

OUR COMMITMENT

YOUR ENVIRONMENT. OUR RESPONSIBILITY.

Waste management is more than moving unwanted materials from one place to another.

It is about what happens next.

At Chenab, we focus on recovering materials wherever possible, directing recyclables back into productive use and managing waste responsibly when recycling is not possible.

Our commitment is to provide practical solutions that help businesses operate cleaner, safer and more sustainably.

WE BELIEVE IN

- Reducing Waste
- Recovering Resources
- Supporting Recycling
- Responsible Disposal
- Safer Operations
- A Cleaner Future

Smarter waste management today creates a more sustainable tomorrow.
