ABOUT ME

Hey! My name is Maria and I am a digital design graduate of the Hogeschool van Amsterdam. During these studies, I learned to get myself out of my comfort zone and explored many different new technologies and softwares. Now that I finished studying, I am searching for a place where I can continue working on getting a better designer. I love aligning my work with my ethical views and recent topics that concern all of us.

In my freetime I love playing basketball or watching a nice movie in one of Amsterdam's cinemas.
