

2026 PROFORM RUSTPROOFING PROMOTION JULY 14 TO AUGUST 31, 2026

CARQUEST Canada is pleased to offer special promotional pricing on an assortment of rustproofing solutions for your customers. With rising costs and uncertainty, drivers are looking to get the most out of their vehicle, and will see rustproofing as a simple, affordable step they can take to preserve and extend the life of their vehicle.

Three formats of Rustproofing are available:

DRIPLESS ANNUAL RUSTPROOFING - High quality **oil-based** rustproofing. It can be applied on both new and used cars. It penetrates seams and wells to maximize corrosion protection. It does not drip, has low fumes and does not dry. This product should be applied annually.

HYBRID RUSTPROOFING – Premium, long lasting rustproofing formulation made of a **perfect blend of wax and oil** that provides a superior resistance to abrasion from the road. Hybrid rustproofing allows easier application, adhesion and better penetration into seams and cavities.

PERMANENT RUSTPROOFING - High solids, high quality **paraffin wax-based** rustproofing provides tough and durable protection against rust, salt and corrosion. This product bonds extremely well to metal surfaces. It can be used on both exterior and interior surfaces. Dries into a lightly tacky film and doesn't become brittle or lose adhesion. Our longest lasting Rustproofing option.

EFFECTIVE: JULY 14 – AUGUST 31, 2026

DRIPLESS ANNUAL RUSTPROOFING ***OIL BASED

<u>BLACK</u>		
Part #	Size	Promo Price
