

# Quan Hoang

## Product Designer

I'm a product designer with a deep interest in User Experience Design. I've worked on a variety of projects including mobile tools and extensions, HRM, music streaming platforms, internal SaaS, education management systems, Web3, and IoT,...

With a keen eye for design and diverse programming skills, I always strive to bring innovation and optimization to all of my projects.

### July 2022 - Present

**Lead UX/UI Designer**  
**FPT Polytechnic College, Vietnam**

I collaborate with FPT Polytechnic to build projects for their internal education system, used by both faculty and students. As the leader of a UX/UI team of two enthusiastic students, I provide guidance and share my experience.

### Oct 2022 - April 2025

**Lead UX/UI Designer**  
**NorthStudio (U2U Network), Vietnam**

As a Lead UX/UI Designer, I have been responsible for the end-to-end design of all company products, from initial concept to deployment, leading the design and implementation of over 15 products with my team.

### Nov 2024 - Mar 2025

**Product Designer**  
**IDS, Vietnam**

I built an IoT environmental sensor website project, collaborating with a full-stack developer. I led the design process from initial concept to the final UI for the client. The project has been deployed and received positive feedback.

### Sep 2024 - Oct 2024

**UX/UI Designer**  
**Winner Farm, Vietnam**

I contributed to a Web3 project, collaborating with the PO, BA, and Dev teams to complete Phase 1, which included over 70% of the client and admin functionalities.
