# St Therese's School Digital Transformation Success Story

## EXECUTIVE SUMMARY

St Therese's School has collaborated with Beyond the Box for over a decade to provide cutting-edge technology solutions and support to drive their digital transformation. With a comprehensive approach to technology by the Beyond the Box team, St Therese's can concentrate on their core educational mission without worrying about the intricacies of the technology operating behind the scenes.

This complete range of services includes WiFi and networking management, cybersecurity and endpoint protection, Google Workspace and ChromeOS management, Apple Mac and iPad programs, site-wide CCTV monitoring, interactive touchboards, telephony, and more.

By leveraging Beyond the Box's expertise, St Therese's School has successfully cultivated a technology-centric learning environment, fostering a secure and dependable approach to technology for students and staff alike.

## THE CHALLENGE

As technology became increasingly integral to the educational experience, St Therese's School recognised the need to integrate and manage a wide variety of tools and devices into their curriculum and daily operations.

They needed a reliable partner to help them navigate the complexities of IT infrastructure to ensure a seamless, technology-driven, and secure learning experience for their students.

### TECHNOLOGIES

Juniper Mist  
networking & Wi-Fi

Sophos firewall  
and filtering

Google Workspace  
management

1to1 Chromebook  
Program

# THE SOLUTION

St Therese's recognised the importance of collaborating with an organisation that possessed comprehensive knowledge of technology, school operations, and the learning environment.

As the ideal partner, Beyond the Box provided a specialised education technology team that effectively designed and executed a tailored digital transformation strategy for St Therese's.

This team comprised experienced technology leads, dedicated account managers, former school leaders, and experts in various areas such as network management, technology for teaching & learning, collaboration tools, Apple & Chrome device deployment and management, CCTV and site access, BYOD programs, technology projects, cybersecurity, and more.

St Therese's School has successfully cultivated a technology-centric learning environment, fostering a secure and reliable approach to technology for students and staff alike.

# THE IMPACT

St Therese's School has seen significant benefits from their partnership with Beyond the Box, including:

Ready to discover how Beyond the Box can help you succeed with your technology?

**Contact us today to get started!**

1

## **Focus on Pedagogy and Innovation**

Teachers can shift their focus from IT troubleshooting to pedagogy and innovation. They can explore innovative teaching methods, leverage educational technology resources, and create engaging digital learning experiences for students.

2

## **Expert Guidance and Support**

With Beyond the Box's team comprising former school leaders and technology experts, St Therese's School benefits from invaluable guidance and support. The expertise and insights of these professionals enable the school to make informed decisions, implement effective technology projects, and adapt to evolving educational technology trends.

3

## **Future-Focused Education**

This tailored digital transformation strategy has positioned St Therese's School as a future-focused educational institution. By implementing BYOD programs, utilising collaboration tools, and staying abreast of technology advancements, the school equips its students with the necessary skills and knowledge to thrive in the digital age.

This success story demonstrates the transformative impact of Beyond the Box's technology in education services, propelling St Therese's School into a technology-driven educational institution. With a decade-long partnership built on trust and expertise, Beyond the Box is proud to continue supporting St Therese's School's mission of providing a secure, engaging learning experience for their students.

# ABOUT US

For over 20 years, Beyond The Box has been a trusted partner for schools, revolutionising digital learning environments and empowering students and teachers alike. We offer comprehensive end-to-end IT solutions and products designed to meet the unique needs and challenges of your school.
