GAGGIA G500

G500 by Gaggia Milano represents the pinnacle of coffee machine development, combining refined aesthetics with sophisticated brewing technology. Designed for coffee aficionados and professional settings alike, the Gaggia G500 embodies the elegance and innovation synonymous with the Gaggia brand.

MACHINE FEATURES

ELEGANT DESIGN

Gaggia G500 features sleek aluminium profiles and LED-illuminated dispensing areas, accented by stainless steel components that underscore its premium build and attention to detail.

ADVANCED BREWING CAPABILITIES

Gaggia G500 can prepare both espresso and filter coffee with outstanding consistency. The machine's ability to handle a double dose—up to 14 or 21 grams—caters to varying international tastes and drink size preferences.

ENHANCED MILK SYSTEM

The Gaggia G500's milk system delivers perfectly foamed milk for a variety of beverages. Programmable cleaning cycles and easy-access controls ensure each drink maintains high-quality taste and texture.

USER-FRIENDLY INTERFACE

A 7-inch touchscreen offers customizable user interaction, providing a seamless self-service experience. Drinks can be personalized easily, enhancing customer engagement and satisfaction.
