Meet ARYAN TANWAR

Visual Artist, Animator & Editor

I began my career as a Motion/Graphic Artist, leveraging multiple internships with leading marketing agencies like Galaxy Advertising and Glomm during my college years.

There, I had the opportunity to work with renowned clients including Bombay Velvet, Punjabi by Nature, Viraj, and international brands like UMG.

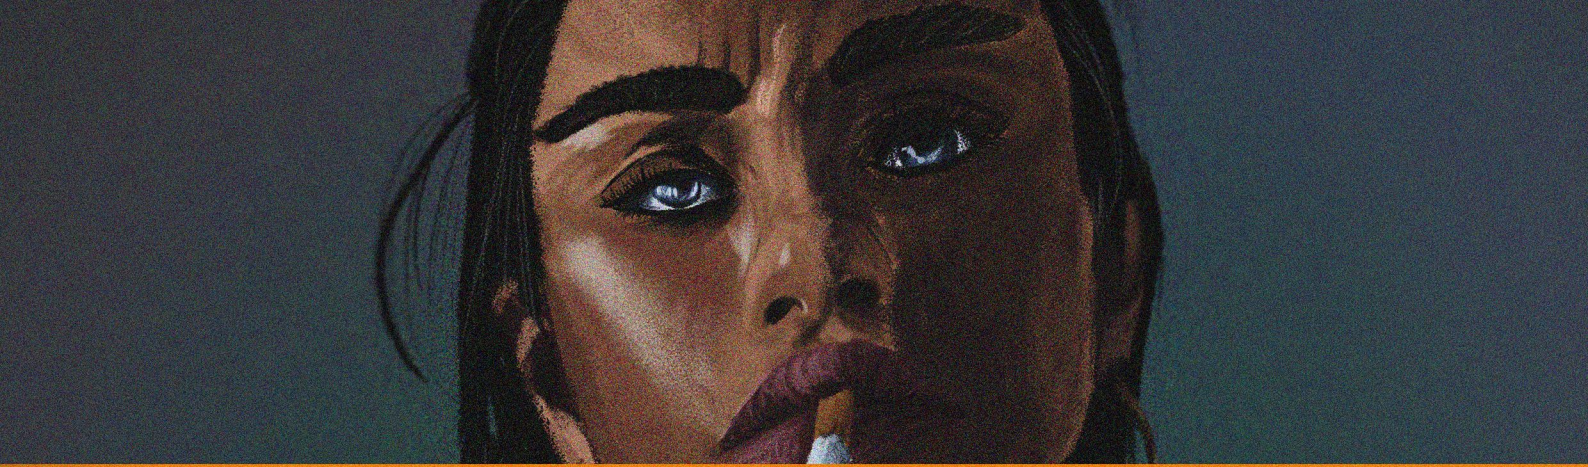

Over the years, I expanded my expertise through freelance collaborations with Histare, Glomm, and Bee Studio, specializing in 3D Modeling, Motion/Graphic Design, and Video Editing.

Brands worked with

As a full-time team member at BlankSpace, I worked closely with brands such as ILT 2024, BIRA, Homelane, and Qurist, contributing to post-production and motion/graphic design projects alongside the founder and DOP.

Work EXPERIENCE

For me, creativity is a journey—one without a stop button. Every day, inspiration finds me in unexpected ways. One moment, I'm observing a fleeting shadow or a vivid conversation; the next, I'm at my desk sketching a storyboard or mapping out an entire project. Each spark of curiosity pulls me deeper into the art of storytelling. It's this passion that drives my commercial and personal projects, blending imagination with purpose. When my thoughts overflow, I find balance through movement—whether running, connecting with loved ones, or embracing new experiences. These moments ground me and fuel my creativity.
