

EnKoat Insider

Where Innovation Meets Sustainability™

Dear <<First Name>>,

The heat may be fading, but our momentum isn't. From major awards to national events, new installations, and our biggest product recognition yet, Q3 was a quarter of breakthroughs. Let's dive right in!

Q3 Highlights: From Heatwaves to Headlines

- ✓ **Data Center Milestone:** Six months post-installation, the Texas data center reports **consistent interior temperatures of 86°F** (down from 145°F) and **zero equipment failures** - a major validation from the facility manager.
- ✓ **40,000 sq ft protected in St. Louis** in just 3 days
- ✓ **National recognition** from Third Derivative, QBE, EnergyTech Nexus & more
- ✓ **Climate Week NYC** pitch + showcase, featured in Daily Commercial News

Project Spotlights: Results That Speak For Themselves

1. [St. Louis, MO - 40,000 sq ft](#)

Aging foam roof transformed into a high-performance climate shield in just 72 hours with zero disruption.

2. [Houston, TX - Smart curb repair](#)

Advanced curb sealing with IntelliKoat™ stopped persistent leaks, reinforced the structure, and prevented weather-related failures.

3. [Texas Data Center - 100,000+ sq ft](#)

Interior temps dropped from **145°F to 86°F**, resulting in zero failures and massive energy savings. “It’s a night-and-day difference,” said the facility manager. [▶ Watch the video](#)

Awards and Recognitions

**Top 10 PropTech at QBE
Resilience Challenge**

**Energy Resilience
Champion Award at Pilotathon
2025 at Houston Climate Week**

Third Derivative Global Accelerator Selection

RMI Welcomes 18 Climate Tech Startups
From Six Countries to Climate Tech
Accelerator Third Derivative

*Innovative companies join 280+ strong portfolio working to
solve the world's most pressing decarbonization and
emission reduction challenges*

Daily Commercial News Feature

A screenshot of a news article from Daily Commercial News. The headline is "IntelliKoat™ Is Changing The Game For Data Centers!". Below the headline is a photo of a large data center building with solar panels on the roof. The text below the photo states: "EnKoat's IntelliKoat™ cut roof temperatures by 50°F on this 110,000 square foot data centre in Texas, eliminating cooling system strain and preventing costly equipment downtime."

Thought Leadership: Building Smarter Cities

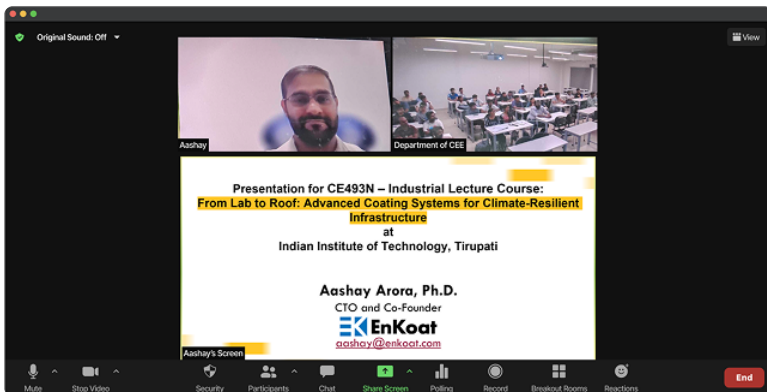

Climate Week NYC

Pitched at "Adaptation in Action" in front of 150+ policymakers, investors, and urban tech leaders.

Venture Café Phoenix | CEI Main Stage

EnKoat was invited by the City of Phoenix to share how smart materials like IntelliKoat™ are redefining city infrastructure.

ASU & IIT Tirupati Guest Lectures

Co-founder Dr. Aashay Arora inspired future engineers through lectures in Arizona and India on the path from lab to resilient infrastructure.
