

DESIGN CONSULTATION

Guide

We are excited to help you create a functional, stylish, and organized space. This guide will familiarize you with our consultation process and aid in designing a custom space that works perfectly for you!

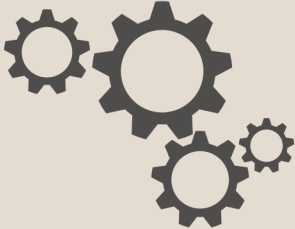

1. Understanding Your Needs

- We'll ask about your daily routines & storage challenges
- We'll discuss what works (or doesn't) in your current space

2. Evaluate Space & Take Measurements

- Measure the linear feet that your clothes currently occupy
- If you store shoes in your closet we will take a count
- Sketch and measure your space which will enable us to accurately design your custom space.

3. Design Process

- Discuss and develop the preliminary design with you based on the space and your needs.
- We'll show you layout ideas, finishes, & accessories.
- You'll receive a custom 3D design and rendering to visualize your new space.

4. Estimate & Next Steps

- Provide an estimate for the design, fabrication, and installation
- Schedule fabrication and installation

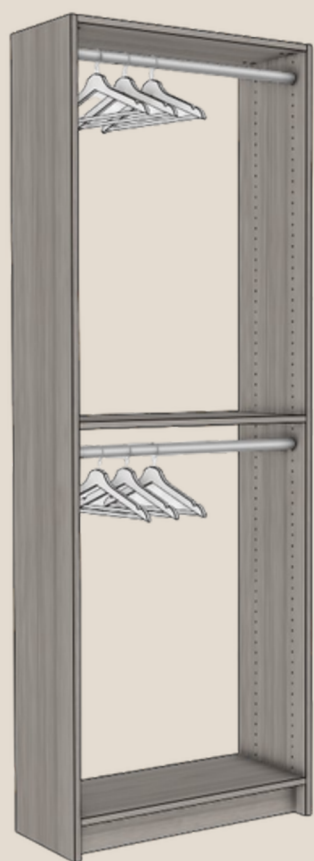

5. What can you do to prepare for your consultation visit?

(Use Preparation Section Below)

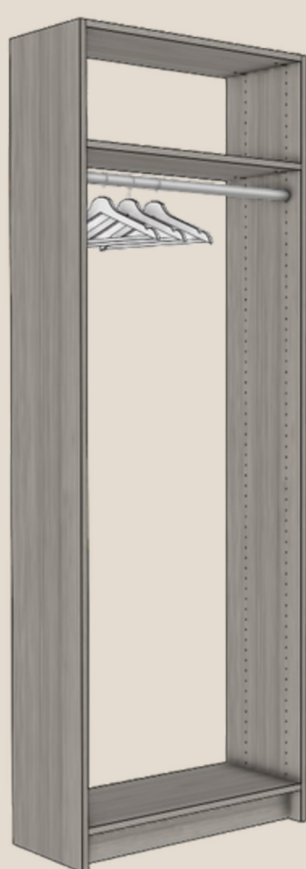

- Document your current storage challenges
- Your wish list for your custom closet?
- If possible, take the time to de-clutter your closet before the consultation. De-cluttering will help in identifying your ideal closet needs* i.e. If you have 6 feet of space dedicated to long hang items, but never wear those items

Preparation

What Do You Need to Store?

How much of it?

- ***Hanging Items:*** How much short, mini, midi, maxi, long hang items do you have?
- ***Seasonal Storage:*** Do you need space for winter coats, off-season items?
- ***Shoe Collection:*** How many pairs do you need to store? Do you need special storage for boots or ?
- ***Accessories & Other Items:*** Do you need dedicated storage for handbags, luggage, ironing board, safe, belts, ties, jewelry, handbags, hats, etc.

Your Wish List

- Built-in hampers for easy laundry sorting
- Valet rods to plan outfits
- Pull-out racks for ties, belts, or scarves?
- Dedicated jewelry trays or drawers
- Custom-built island or seating area
- Integrated medicine cabinet
- LED lighting
- Any other must-have features?

What are Your Top 5 Storage Challenges?

What frustrates you the most?

1. _____
2. _____

Typical Hanging Section Heights

Hanging Type	Common Height (inches)	Description
Short Hang (Double Hang)	38" - 42" per section	Stacked double rods for shirts, blouses, and pants. Total system height: 84" - 90"
Long Hang	60" - 66"	Designed for dresses, long coats, and gowns
Mini	24" - 30"	Ideal for kids' clothing, shorts, and small garments
Midi	36" - 44"	Used for shirts, blouses, and folded pants on hangers
Maxi	45" - 50"	Works well for longer shirts, blazers, and jackets
Tall Hang	66"+	Designed for extra long items. Robes, Cultural Garments, Ball Gowns

Common Useful Measurements

Measurement	Standard Size (inches)	Notes
Standard Hanger Width	17" - 18"	Hangers for adult shirts, jackets, and blouses
Suit & Coat Hanger Width	19" - 22"	Wider to preserve shoulder shape
Child Hanger Width	12" - 14"	Designed for kids' clothing
Hanger Depth (Rod Clearance Needed)	20" - 24"	Allows proper space for hanging without clothes hitting the back wall
Hanging Rod Diameter	1" - 1.5"	Varies based on material and weight capacity
Shoe Storage Height	6" - 8"	May need to adjust for extra tall heels
Boot Storage Height	16" - 22"	Accommodates knee-high boots
Valet Rod Height	50" - 55"	For temporary outfit display and hanging
