ESSENTIAL Q&A

Q. Are these plants real?

These are 100% real forest elements - moss, flowers, and plants - preserved at their perfect moment.

Q. Do they need water?

NO WATER NEEDED. Adding water will affect the preservative coating. They're preserved to stay perfect without any water.

Q. What if they get dusty?

These are dust resistant, but if you see dust settling, use light air blow. Don't use water or other liquids.

Q. Will they grow further?

No, they're preserved to stay exactly as they are - like a beautiful photo of nature, frozen in time.

Q. How long do they last?

3-6 yrs depending on how safe they are kept

Q. Can I keep these in an AC room or near windows?

Absolutely. These thrive in air-conditioned indoor spaces. But avoid direct sunlight, rain, or outdoor exposure - weather elements will damage them.

BG-crackers

₹135

BLOOM CRACKERS BOX

Each set contains 3 plantable crackers, individually packed in seed paper sleeves, and housed in a 4" x 4" seed paper box—so every element of the product grows into fresh plants. 100% plastic-free, biodegradable, and zero waste.

- Celebrate without pollution: Light up smiles, not smoke.
- Symbol of growth: Crackers that bloom into plants.
- Joyful gifting: Unique, memorable, and conversation-starting.

Why light up smoke, when you can light up smiles?

Bloom Crackers are an eco-friendly alternative to traditional Diwali firecrackers. Made entirely from plantable seed paper, these colourful crackers burst not with noise and pollution, but with life and greenery.
