COLLEGE PROJECTS

Metro Access Redefined: Innovative Solutions for Inclusive Travel

A project to enhance Delhi Metro accessibility for color-blind and visually impaired users. Analyzed color-coded maps, identified usability barriers, and engineered design solutions to improve navigation and inclusivity. Advocated for the significance of accessibility in public transport, promoting independence and seamless travel for diverse user needs.

UX Design, Completed

Mindful Waste: Transforming Environmental Behavior Through Psychological Insights

Exploring the psychological influences on public behavior towards waste management in India. Examining how cognitive biases, social norms, and emotions shape attitudes and actions. Designing content to inspire environmental consciousness and encourage responsible waste practices.
