

Product Designer

Philipp Dietrich

I am passionate about design and technology that's intuitive, functional and aesthetic – I love to invent creative solutions with humans, their environment and the planet in mind.

DESIGN WORK EXPERIENCE

UX/UI Designer @ Care Companion GmbH

03/2023 – 06/2023

Careship: Relaunching a completely overhauled version of the matching platform for elder caretakers to find caregivers in their neighborhood (iOS, Android, Web)

- Ideation, conception and creation of an information architecture
- Evaluate Design Sprint outcomes and internal interviews
- Defining design process, guidelines for a Design System and principles mainly for accessibility
- Creating user journey, user stories, user flows, wireframes and prototypes for early testing

UX/UI Designer @ Spielworks GmbH (former techdev Solutions GmbH)

05/2019 – 04/2022

I was the only Designer and always responsible for all projects from their very beginning when it came to any UX and UI Design related work.

Womplay: platform with crypto and NFT rewards for mobile gamers (Responsive Web)

Wombat: blockchain wallet with more than 2.5 million users (iOS, Android, Browser Extension)

Chain Clash: blockchain fighting game with 3D-Avatars (Responsive Web)

- Ideation, conception and creation of information architectures
- Building extensive style guides and component library including customized icon-sets
- Creating user flows, diagrams, prototypes, UI of final products on all provided platforms
- Illustrations and animations for a substantial user experience
- Wombat redesign in dark themed UI with focus on gaming
- Ongoing enhancement with new features, handover and close collaboration with developers

UX/UI Designer @ techdev Solutions GmbH

10/2018 – 04/2019

• Building a full-featured Amazon Alexa UI kit in Sketch according to Amazon's Design guidelines

• Design for Alexa skills for different clients (Amazon Echo Show, Spot)

Klima-Kollekte: mobile CO₂ calculation and compensation (iOS, Android)

- Project management, customer advisory service and product presentation for the client
- Ideation, conception and creation of the information architecture
- Creating diagrams, prototypes and the UI of the final product
- Handover and close collaboration with development
