SUPPLY CHAIN & PROCUREMENT CONFERENCE

Sheraton Hotel, Dammam – Conference Hall

February 12–13, 2025

9:00 AM – 4:00 PM

“

We, with the help of Allah, continue to invest in implementing initiatives and economic reforms to achieve the goals of the Kingdom's Vision 2030, ensuring continuous improvement in the quality of life and optimal utilization of available resources. We aim to enhance transparency, efficiency, and the quality of government spending to boost growth and development rates, improve public facilities and basic services for citizens and residents, develop the educational environment, and support housing plans

”

Custodian of the Two Holy Mosque
King Salman bin Abdulaziz Al Saud

“

We commit to being among the best countries in the world in effective governmental performance to serve its citizens. Together, we will continue building our nation to be what we all aspire: prosperous and thriving, firmly established on the strength of its people and their accomplishments

”

His Royal Highness Crown Prince

Mohammed bin Salman bin Abdulaziz

Crown Prince, Prime Minister, and Chairman of
the Council of Economic and Development Affairs

SUPPLY CHAIN & PROCUREMENT CONFERENCE

Leading Partner

aramco

Saudi Arabia powers the world through high-quality and efficient supply chains

Aramco has earned a global reputation as a leading and reliable energy provider with an exceptional level of operational efficiency. This is achieved through its advanced systems and processes that manage supply chains. These integrated systems are designed for meticulous planning, scheduling, and distribution. Aramco delivers approximately 12 million barrels of crude oil daily, along with significant quantities of natural gas, meeting the needs both domestically and internationally. The company also collaborates with several local and global entities to strengthen the supply chain network.

The Importance of Supply Chain and Procurement in Saudi Arabia

Government Investments

Saudi Arabia has invested around \$80 billion in developing local content, emphasizing the significance of this sector in achieving economic growth and enhancing industrial sustainability

Local Content Programs

The Kingdom has launched government programs to support local content, enhance its contribution to the GDP, and promote reliance on local suppliers, strengthening the national economy

Global Supply Chain Initiative

This initiative positions the Kingdom as a global hub for supply chains, promoting partnerships with international companies, fostering innovation, and developing advanced logistics solutions

Industry Localization and Knowledge Transfer

The Kingdom adopts strategies to localize industries and transfer knowledge through strategic partnerships with global companies, aiming to improve local capabilities and adopt advanced technologies

Improving Logistics Performance

Saudi Arabia achieved a significant improvement in the global Logistics Performance Index (LPI), driven by advancements in logistics infrastructure and the enhancement of transportation and distribution operations

Programs for Developing National Logistics Services

Launched in 2019, these programs aim to position the Kingdom as a global leader in logistics, mining, and industrial services, focusing on strategic innovation and the development of advanced logistical solutions
