PROFILE

Graphic Designer with 10 years of experience specializing in UX and UI design. Skilled in creating intuitive digital experiences that enhance user satisfaction. Proven ability to collaborate with teams to deliver effective solutions while staying current with industry trends.

EDUCATION

UX Courses (Platzi, Coursera)
2017 - 2020

Universidad Autonoma del Caribe
Graphic Design 2010 - 2015

EXPERIENCE

Senior UX/UI Designer, @Media.Monks 2019 - Current

As a Senior UX/UI Designer at Media.Monks, I have led all design processes for internal products over the past five years. During my time here, I have collaborated closely with clients to understand their needs and vision, ensuring that each product aligns with user expectations and business goals. My role has allowed me to drive innovative design solutions while mentoring junior team members, fostering a culture of creativity and continuous improvement within our design team.

UI Specialist, @Aval Digital Labs 2018 - 2019

At Aval Digital Labs, the first digital laboratory created by Grupo Aval for its four banks, I worked as a UI Specialist. I contributed to developing the design system for Banco Popular and designed the user interfaces for various projects, collaborating closely with the bank's marketing team to ensure alignment with their branding strategies.

UX/UI Designer, @Ideaware S.A.S 2014 - 2018

At Ideaware, I began my career as a Junior Designer and advanced to a Senior Designer role. During my time there, I gained extensive knowledge and experience while working on a wide range of projects, primarily focused on website creation. This opportunity allowed me to develop my design skills significantly and collaborate with talented teams, laying a strong foundation for my career in UX and UI design.
