

ALOGHO V AYE

Product designer with 4+ years in design, currently at a **cybersecurity B2B SaaS** firm. Shipped **two live products** end to end discovery, flows, interface, and the design system underneath. I work best on dense, technical problems, making complex systems legible.

Experience

Rapifuzz

Mar 2023 – Present · Gurugram

UI/UX Designer

- Sole designer on **CyberKshetra**, deployed at BITS Pilani as a paid three-month engagement; 75% of enrolled students stayed active through the full term.
- Designed the **CTF player experience** used live at IIT Delhi and the University of Queensland with 17 participants; ran without incident.
- Restructured the event creation flow after new type overloaded it **an independent call shipped mid-build**. A fourth event type was later added with zero restructuring.
- Built the **design system** both products run on, and a **gamified XP system** across 300+ scenarios.
- Replaced per-node **error checking** with a single error panel in the scenario builder from **one click per node to one click for all**.
- Ran **usability sessions** with cybersecurity analysts before release findings from those sessions drove the consolidated error panel.
- Designed **ApiFuzzer**, an API security scanner used by organizations for scan setup and result analysis.

Inframantra

Mar 2022 – Feb 2023 · Gurugram

Graphic Designer
