 Katarina Bangata 79, 11642 Stockholm, Sweden

PROJECTS & INTERNSHIPS

• Design & UX Lead

Emplojd • April - June 2024

Led the UX and design team for the Emplojd app. Results of the work came as wireframes, design system, mockups, prototype & live website. Emplojd is an app that enhances the creation of personal letters with AI.

• Code Manager

Kappn's Catch • June 2024

Overlooked the entire code and managed our GitHub for a school project called Kappn's Catch where we worked with an API and manipulated its data.

• Design & UX Lead

Teknikguiden • January - April 2024

Led the entire team and made sure we delivered what was expected and above. The project entailed research in various forms, wireframes, mockups, prototypes, design system, various types of user tests.

• Internship - Web Design

Slash.ten/Slash.ten Models • May 2019 – June 2019

Re-designed the company's entire existing website from Wix with Wordpress and Elementor. Made improvements to the design and held presentations to discuss them.

• Internship - Web Design

Viktor Åkerblom AB • May 2019 – June 2019

Gave a new look to a swedish actor's website using Wordpress and Elementor. The new design was a complete overhaul and was brought forth in talks together with the actor.
