45SRC

STERN DRIVE

OLR

OLYMPIC RIBS

Offshore character.
Yacht-like living.

HANDCRAFTED IN GREECE

THE OLR APPROACH

Greek craft. A different kind of flagship.

Handcrafted in Greece, the 45SRC Stern Drive brings together offshore hull design, generous living spaces and the freedom to create a more personal boat.

40+

YEARS OF BOATBUILDING

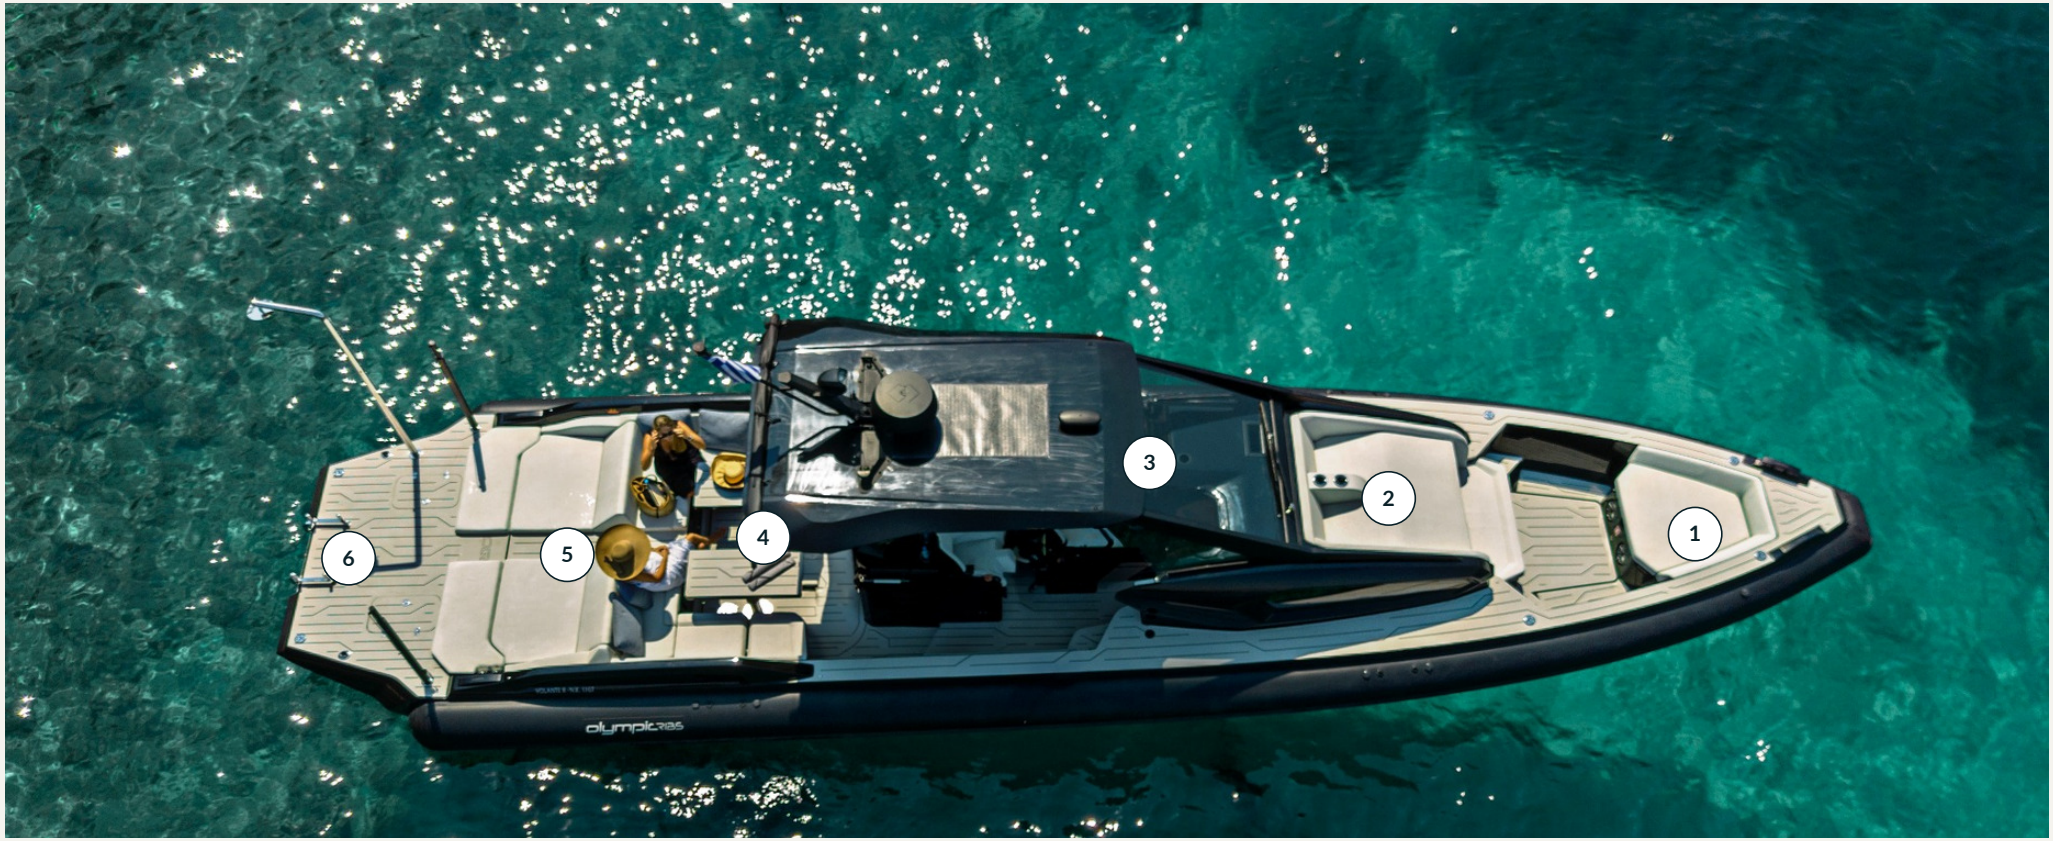

Olympic RIBs has been building in Greece since 1985, with more than 4,000 boats delivered worldwide.

Offshore hull. Open deck. Bespoke cabin.

Discover the OLR story

Every space has a purpose.

1 **Bow lounge**

A separate seating area at the bow.

2 **Console sun lounge**

A dedicated place to stretch out.

3 **Sheltered helm**

Hardtop and windscreen above the controls.

4 **Wet bar**

Refreshments close to the seating areas.

5 **Aft living area**

A lounge that changes with the day.

6 **Swim platform**

An open stern without outboard engines.

The bow, on your terms.

01 **Sun lounge**

Upholstered lounging ahead of the windscreen, with a separate seating area further forward.

An optional adjustable table creates a dining space, then lowers away for a more open bow area.

Room to gather. Room to unwind.

The U-shaped aft lounge seats up to seven at rest. Optional rising tables bring lunch and drinks into the centre of the space, while adjustable backrests offer another way to relax.

Shown: the lounge in open-deck, dining and sunbathing arrangements.

OFFSHORE-MINDED COMFORT

Comfort starts at the helm.

Ullman suspension seating helps reduce the repeated impacts of offshore travel. It brings shock-mitigation technology used by professional and military operators to the helm experience.

The hardtop and windscreen frame a protected driving position, with navigation displays and controls close to hand.

Suspension hardware beneath the helm seats.

Seat technology: Ullman Dynamics

Entertain effortlessly.

A centrally positioned wet bar keeps the serving area close to both the helm and aft lounge. Integrated storage keeps the deck organised.

Refrigeration, a sink, cooking equipment and audio upgrades can be selected to suit your cruising style.

Wet bar and dining areas shown with selected equipment.

BELOW DECK

Room to be yours.

2.00 m

Standing headroom in the cabin's main area.

The photographed cabin is one possible arrangement, not a fixed interior. Upholstered seating, wood-finished cabinetry and integrated storage create a welcoming space below deck.

We can tailor the sleeping arrangement, bathroom layout and galley provision around your requirements, subject to the agreed design and technical specification.

A private bathroom. Proper comfort.

A separate enclosed bathroom provides a basin, electric toilet, shower and built-in storage. The photographs show the detailing and finish of an existing interior.

A larger bathroom or a different arrangement can be considered as part of your bespoke cabin design.

INTERIOR SHOWN: EXAMPLE CONFIGURATION

Basin, shower and storage.

Separate electric toilet.

BESPOKE POSSIBILITIES

Your boat.
Your priorities.

Start with the way you want to use the boat. We then discuss the layout, finishes and equipment that make it work for you.

01 **Sleeping arrangements**

Discuss berth layouts and how the cabin will be used.

02 **Bathroom and galley**

Balance bathroom space with optional galley facilities.

03 **Air-conditioning**

Cabin air-conditioning can be added for warm-weather cruising.

04 **Generator integration**

A bespoke generator installation is subject to technical confirmation.

KEY PARTICULARS

45SRC Stern Drive

Twin Volvo Penta stern drives. A 21° deep-V hull. An extended aft platform.

Length overall	15.00 m
Beam	3.65 m
Fuel capacity	1,200 L
Fresh water	200 L
Maximum persons	14
CE category	B
Recommended total power	880 hp
Cabin standing headroom	2.00 m

ANCHORING EQUIPMENT

An electric windlass, custom bow roller, chain counter and remote control form the anchoring equipment outline. Final equipment sizing and installation details are confirmed in the build specification.

Published model particulars; final dimensions, equipment and layouts are subject to the agreed specification. Images show selected builds and may include optional equipment.

Model specifications OLR heritage Ullman seat technology

Equipment: shipyard schedule; confirm current build specification.

BEGIN YOUR BUILD

Create your own 45SRC.

Tell us how you want to spend your time at sea. We will explore the possibilities together.
