Our STORY

What epic story doesn't start with a little romance and a whole lot of great food?

Our story started on a food journey somewhere between Southern California, Mexico and Australia when Colin (a true-blue Aussie bloke) and Deann (a fun-loving Cali girl) fell head over heels in love and spent a year travelling together.

Craving the tastes and smells of her childhood, Deann persuaded Colin to take a huge leap of faith in launching their own range of handmade white corn tortillas, tortilla chips and salsas out of a small factory right in the heart of Miami on the Gold Coast.

Fast-forward a stellar 25 years in business, we now employ over 50 staff and supply our range of healthy wraps, tortillas and condiments Australia-wide and internationally.

Passion is where our story started and all these years later, passion is what continues to drive our 100% Aussie family-owned and operated business.

We continue to operate on the Gold Coast out of our ever-expanding factory space in Burleigh Heads, using locally sourced ingredients wherever possible.

Our commitment is to make the most authentic food possible with a strong focus on nutrition, dietary requirements, flavours and quality.

Ultimately, it is food made with love and soul that makes Diego's truly stand out from the pack!

Retail OVERVIEW

Our loyal customers are the reason we do what we do, and without them we wouldn't be still thriving in business.

Catering to a variety of consumer tastes and requirements, Diego's has launched a series of Australian and world-first products to meet the growing demand for both diverse and delicious product.

We are proud partners of IGA, Drake's and FoodWorks and are always looking for new opportunities to grow in the retail sector, as well as having loyal distributors in Singapore, Saudi-Arabia, Vietnam and Malaysia.

Diego's was the first to release a signature nixtamal white corn tortilla in Australian grocery stores, a humble staple bread originating in Mexico. At the time, Aussie consumers weren't widely exposed to Mexican cuisine and our product provided a stark alternative to the corn taco shell style products available at the time.

While Diego's has its own branded products in both the retail and food service sectors, we also provide many customers the option of private labelling throughout Australia as well as overseas.

We are a vegan and allergen friendly production facility — free from nut, dairy, egg, lupin and soy, with our ingredients free from animal products.

Nothing makes us happier than hearing valued feedback from our precious clients. We love being able to see people enjoy our product and we place an extremely high value on repeat business. After all, we want our customers to have the same passion for taste and flavour that we do.

We are always looking to create new and innovative products and look forward to expanding our diverse offering in the years to come!

GOMEX[®]
MEXICAN STREET FOODS

Our TORTILLAS

BENEFITS INCLUDE

WHITE CORN TORTILLAS
