The Real Wisdom

Goddess Durga is Adiparashakti who can otherwise be viewed as the universal consciousness (Paramatma Chaithanya). Your soul (Jeevatma) is only a spark of this burning energy of Durga Devi (Banerjee, 2001). Hence, you should get attuned to this universal force in order to be freed from the advancing decay in spiritual and mundane life by removing ill-luck.

To protect oneself from evil planetary rays in general, one should worship Durga Devi by chanting the Ashtakshara Durga Moola Mantra. The Durga Moola Mantra is made up of fiery beejaksharas which burns up the sins of the one who chants it (Banerjee, 2001). Hence, in order to make your mind-body-spirit complex experience the stellar-fire, I request you to kindly chant the mantra given below 756 times (7 Malas) a day.

'Om Hreem Dum Durgayei Namah'

The eight lettered mantra given above has the energy of eight planetary forces. That is;

1	Om	Sun
2	Hreem	Moon
3	Dum	Mars
4	Dur	Mercury
5	Ga	Jupiter
6	Yei	Venus
7	Na	Saturn
8	Mah	Rahu&Ketu

Energy Field of Navagrahas

According to my Guru late Prof. (Dr.) Nimai Banerjee, there is an occult knowledge/meaning behind the arrangement of images/idols of deities during the Durga festival which occurs every year.

The image tells us the arrangement of photos which can represent the nine planetary energies. You can print it or frame it, to keep it always with you. Please touch the appropriate image whenever you chant the moola mantra of that deity. It will help you optimise the energy field of nine celestial bodies around you.

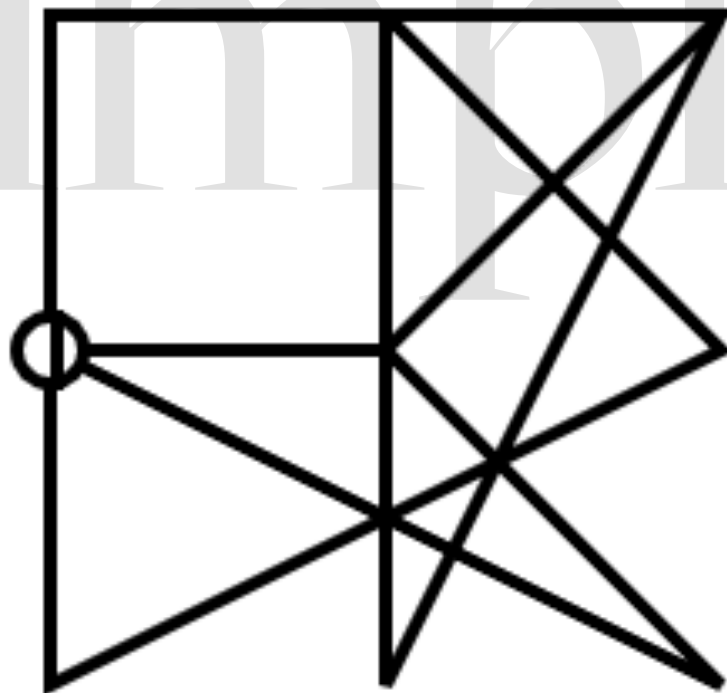

03

Sigil (Symbol having magical power)

INTEND:

“I am one with the universe, which is bountiful and supplies all that I need”.

This ‘intend’ is converted into a sigil. You can take a print of the below sigil and keep it always with you. Whenever you get time, focus your attention towards the sigil and start saying the intend silently in your mind for some time. This is how you charge it. Daily practice of it will manifest the above intend in your life

Food habits and colour choices of dress?

Robert Svoboda in his book *Greatness of Saturn* says “The better a thing resonates with a planet’s essence, the more closely it will function as that planet’s representative on earth”.

If you follow certain preferences regarding food and the dress that you wear daily, you can resonate well with each day’s planetary energy. Try to include some of the mentioned varieties in your food menu each day and also try to wear dresses of mentioned colour (not a single coloured cloth; if the dress has the said colour in a major portion, it will do).

Sl. No	Planets	Day	Food	Colour choices of dress
1	Sun	Sunday	Wheat, Cayenne Pepper, Garlic Cinnamon	Deep red
2	Moon	Monday	Rice	Milky white or Orange
3	Mars	Tuesday	Red lentils, Cinnamon, Garlic	Bright Red
4	Mercury	Wednesday	Green Gram, Indian Gooseberry	Green
5	Jupiter	Thursday	Chickpea, Almond, Cashews, Walnut	Yellow
6	Venus	Friday	White beans, Curd, Citrus fruits	White
7	Saturn	Saturday	Sesame seeds	Blue
8	Rahu	Saturday	Black Gram	--
9	Ketu	Tuesday	Horse Gram	--

Note: Remember, if you have any diet restriction posed by a medical practitioner, please follow his/her instructions strictly.
