

WHAT TO EXPECT DURING YOUR ROOF REPLACEMENT

At **Wide Roofing & Construction**, our priority is ensuring a smooth, efficient, and safe roof replacement process. Below is a list of key events and precautions to help you prepare and protect your family, pets, and property.

BEFORE THE PROJECT BEGINS:

- **A dedicated Production Manager and Foreman** will be assigned to oversee your project and address any concerns
- **Clear your driveway of all vehicles.** Garage access may be blocked
- **Remove or cover delicate furniture and fragile items located outside** near the work area

DURING THE ROOF REPLACEMENT:

- **Keep pets inside your home or in a safe place at all times** due to loud noises and hazards
- Expect **loud noises** from hammering, drilling, and material removal
- **Debris will fall** from the roof during the tear-off. For safety, please stay inside your home as much as possible
- A **dusty environment** is expected. Consider keeping windows and doors closed.
- **Work hours:** Crews will be on-site between **7:30 AM – 6:00 PM**. Dump trailers, machinery, and workers will be present during this time
- **Television and internet services may be temporarily interrupted**
- **If you have solar panels on your roof, they must be removed before tear-off.** Please coordinate with your sales representative to arrange removal
- **Avoid walking around the property** during tear-off and installation due to potential hazards such as nails and sharp debris
- **Never climb onto the roof** while work is in progress

OTHER IMPORTANT DETAILS:

- A **ladder and permit paperwork** will remain on your property for the duration of the project
- If the project requires **city inspections**, our office will notify you in advance
- After installation, a **thorough cleanup** will be performed, including a magnet sweep for nails
- In case of **any unexpected issues or changes**, our office will communicate with you promptly

We appreciate your trust in Wide Roofing & Construction. If you have any questions or need assistance at any time during your project, please contact us:
