WORK OBJECTIVES

I'm excited to build a career in UX/UI Design with a progressive company that supports growth. I'm eager to contribute to innovative projects, improve my skills, craft engaging visuals, and create meaningful user-focused solutions in a collaborative setting.

KEY SKILLS

- Employ empathy-driven user research to enhance products by understanding user experiences.
- Utilize visuals to effectively convey concepts and ideas for enhanced understanding.
- Create wireframes and prototypes using Figma for diverse design projects.
- Exhibit a strong eye for UI design and continuously enhance Interaction design skills.
- Actively learn and apply responsive design principles to adapt to evolving design trends.
- Manage basic to intermediate design systems proficiently, continuously improving with adaptability.
- Skilled in illustration and photo editing, and contributing as a valuable team player.
