

Anubha Singh

AI Interface Designer | Design Engineer | Senior Product Designer

India (open to remote and relocation) | anubhasinghanim@gmail.com | linkedin.com/in/anubha-singh

Portfolio: intellectual-consistency-612812.framer.app

SUMMARY

Product designer with 8+ years of experience across AI infrastructure, enterprise B2B SaaS, healthcare and blockchain. I help teams turn AI-generated interfaces into a coherent product through clear design rules and hands-on review: designing in Figma, implementing with AI-assisted development (Claude Code, GitHub) and shipping reviewed pull requests. Strong in design systems, user research and usability testing. Seeking senior or lead product design roles.

EXPERIENCE

Senior UI/UX Designer (Product Designer and Design Engineer)

Feb 2025 – Oct 2026

[Tracebloc](#) | Berlin, Germany (Remote)

- Sole designer at a federated learning platform where enterprises train, evaluate and benchmark AI models without exposing their data; reported directly to the founder and CEO.
- Owned product design, the design system and a growing share of front-end implementation for interfaces used by AI engineers for model training, evaluation and distributed machine learning.
- Introduced a pilot-based workflow: every feature started as a working build, with design passes on colour, spacing, typography, copy and layout done live in the browser, then a final polish after real-data integration.
- Built a Claude-based audit that compares the live product with the design system and flags missing or drifted components.
- Designed components in Figma as the spec, directed Claude Code to implement them, reviewed output against the spec and opened pull requests for page-level work.
- The design-to-production process stayed in use after my departure.

UI/UX Team Lead

Feb 2024 – Jan 2025

[MoreYeahs IT Company](#)

- Led UI/UX design, user research and usability testing across client projects.
- Supported WordPress and HTML/CSS implementation and project management.

Senior UX Designer and UX Researcher

Sep 2023 – Feb 2024

[ESPSofttech IT \(Blockchain\)](#)

- Designed experiences across blockchain, crypto, AR/VR and gaming products.
- Collaborated with Flutter developers on a crypto platform launch.
- Built wireframes and prototypes from user interviews and web analytics.

UX Designer and UX Researcher

Jun 2022 – Sep 2023

[MoreYeahs IT Company](#)

- Researched and validated a new virtual-visit experience with product managers, researchers, engineers and customers.
- Built end-to-end mobile and desktop flows aligned to the Microsoft Fluent and Microsoft Teams design systems.

Freelance UX Designer, Researcher, Writer and Consultant

Jan 2018 – Jun 2022

[Independent](#)

- Combined UX design, user research, UX writing and project coordination for healthcare and IT startups.

SELECTED PROJECTS

LeoCompare (UAE): designed the money-transfer comparison flow so users see the total amount the recipient gets, not just the headline exchange rate.

OXDH Health (United Kingdom): designed the Patient Dashboard in an internal operations portal for clinics and hospitals, giving clinical staff fast access to any part of a patient record.

SKILLS

Design: Product design, interaction design, UX strategy, design systems, component libraries, information architecture, user flows, wireframing, prototyping, visual design, UX writing, responsive web design

Research: User research, user interviews, usability testing, web analytics, design validation

Engineering: Design engineering, AI-assisted development, design QA, implementation review, pull requests, HTML, CSS

Tools: Figma, Claude Code, GitHub, Framer, Webflow, WordPress, Adobe Creative Suite, UserTesting, UsabilityHub, UserZoom

Domains: AI infrastructure, federated learning, machine learning platforms, B2B SaaS, healthcare, fintech, blockchain

EDUCATION

Master of Computer Applications (MCA) 2024 – 2026
Sikkim Manipal University

Bachelor of Commerce (B.Com), Computer Science 2018 – 2024
Rabindranath Tagore University

CERTIFICATIONS

Google UX Design Professional Certificate Apr 2022
Google

ADVFX Certification 2019 – 2021
Maya Academy of Advanced Cinematics
