Creative Product Designer with a strong background in visual communication and graphic design, focused on crafting intuitive interfaces. My portfolio includes three polished UI projects and one comprehensive case study, documenting the entire UX design process from research to testing. I am passionate about UX/UI design and believe my project experience and dedication to improving user experiences make me a strong fit in this field.

Skills:

Product design, UX and UI Design, User research, User Personas & Journeys, Usability testing, User centred design, Design thinking, Prototyping, Responsive web design, Teamwork, Empathy, Continuous learning.

Tools:

Figma, Framer, Adobe Photoshop, Miro, Mural.

Work Experience

Pulse App

(Student Project)

Product Designer

2023 - 2024

- Designed the Pulse app, created to support local communities by providing access to events and promoting user integration. Responsibilities included research, wireframing, prototyping and testing key functionalities.
- Recognized as an exemplary student project at SWPS Wrocław, Pulse demonstrated the complete design process, from initial concept through to a functional prototype.

Freelance

Graphic Designer

Jun 2022 – Jun 2024

- Provided graphic design support for various clients, including advertising graphics, branding, and rebranding for businesses looking to enhance their online presence and visual identity.

MPR Group

Graphic Designer

Feb 2021 – Jun 2022

- Delivered graphic support for the marketing department, focusing on website design, advertising materials, and branding initiatives.
- Contributed to the rebranding efforts, creating modern, user-centric designs that aligned with the company's updated vision.

Google Inc.

ENG-PL Translator

April 2020 – Sep 2020

- Translated vocational training materials from English to Polish, ensuring accurate and clear communication of technical and educational content for a Polish-speaking audience.
- Collaborated closely with content teams to deliver high-quality translations that met Google's standards for clarity and professionalism.
