07

Fabrication Products

- Heat Exchangers
- Pressure Vessels
- The rest from ISO ADN CE certificate
- Storage Tanks
- Cryogenic Tanks
- Process Steel
- Equipment Structural
- Modular Buildings
- CS & SS Piping Spools
- Air Receiver tanks
- Structural Steel Work

08

Turnkey Solutions

We deliver comprehensive turnkey solutions, managing projects from concept to completion, ensuring seamless execution across all phases for a hassle-free client experience.

09

Field Services

Exceptional installation, maintenance, and technical support, ensuring that every on-site task is executed with precision and professionalism to meet and exceed our customers' expectations

10

Specialized Engineering Services

Offering comprehensive studies, innovative designs, and expert consultation tailored to meet the unique challenges of power generation

The Integration

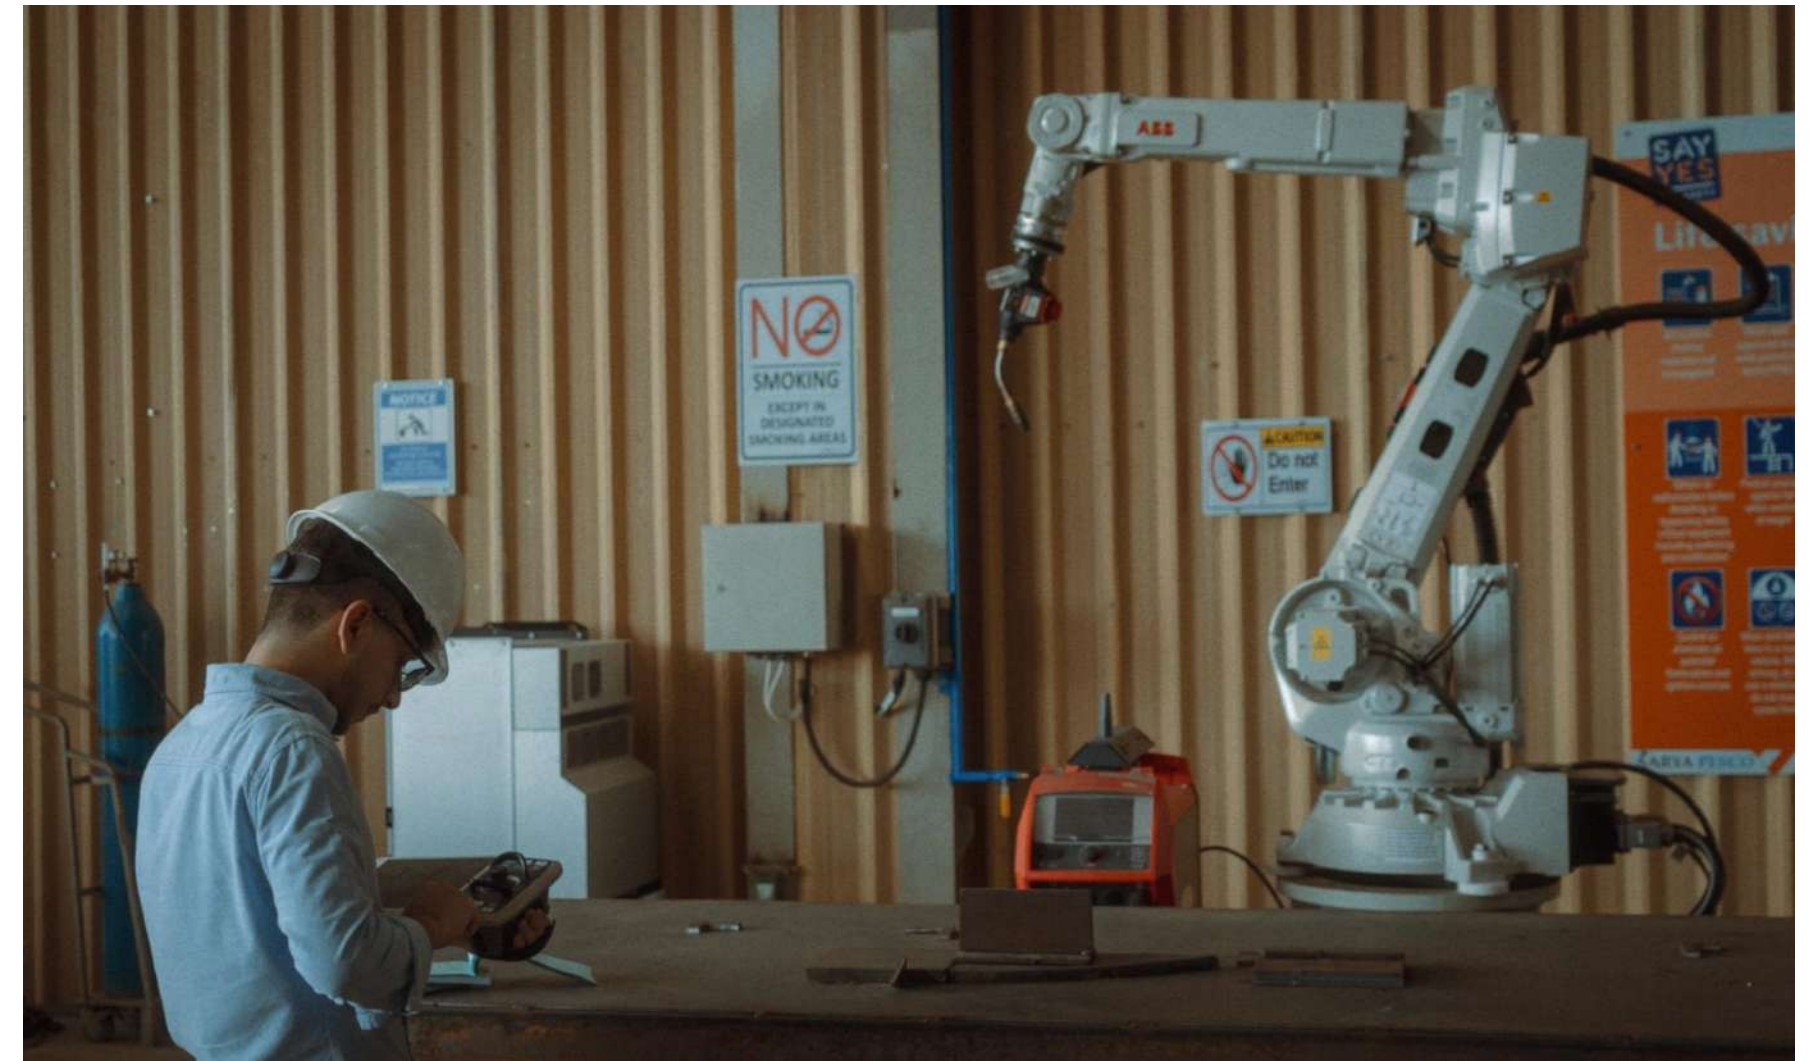

11 Full Fabrication Arm

Our fabrication powerhouse, delivering precise, high-quality metalwork tailored to diverse industry needs. We excel in custom metal fabrication, blending innovation with craftsmanship to ensure reliability and excellence in every project.

12 Full Engineering Arm

Delivers end-to-end solutions, integrating engineering expertise, procurement, and construction capabilities. We drive projects from concept to completion, ensuring efficiency, safety, and quality across the board.

13

Full Manpower Supply Arm

Primestar, our new labor supply company, specializes in providing skilled manpower tailored to meet the dynamic needs of the industry. We ensure that our clients receive reliable and competent workers to support their projects, driving efficiency and productivity.

PESCO Holding

14 Value Chain Integration

With a solid vision to make an impact, we expand accordingly.
