About Company

Founded in the early 2000s, Wondernut began as a small family-led venture dedicated to unlocking the full potential of Kenya's rich agricultural heritage. What started as a modest nut processing operation soon evolved into a global enterprise — blending traditional farming wisdom with modern innovation.

Our Philosophy

Vision

To cultivate, process, and export world-class macadamia products through sustainable farming, ethical partnerships, and cutting-edge innovation — while driving social and environmental impact across East Africa.

Mission

To become Africa's most trusted and sustainable macadamia producer — empowering communities, enriching the planet, and delivering premium, traceable products to the world.

Values

Rooted in integrity and guided by sustainability — our values define how we grow, work, and impact the world.

Integrity, Empowerment,
Quality, Sustainability,
Innovation, Community.

Our History

2000

Wondernut began as a local nut processing venture in Kenya, driven by a mission to uplift farmers and unlock the potential of macadamia cultivation.

2013

To meet rising global demand, the company expanded operations and entered the Export Processing Zone program, ensuring compliance with world-class export and quality standards.

2014

A state-of-the-art factory was built with advanced food safety systems, increasing capacity to over 14,000 pounds of kernels per day and empowering hundreds of local workers.

2020

Wondernut strengthened its sustainability framework — partnering with 4,500 farmers, promoting women's inclusion, and launching tree-planting and water conservation programs.
