## EXPERIENCE

**UI/UX Designer** | Prosperlink Global Pvt. Ltd. | Bengaluru Dec 2025 – Present

- Led end-to-end UX for SingleTap - an AI-powered B2B marketplace featuring dynamic networking, real-time chat, voice, and video flows across web and mobile.
- Designed complex, interaction-heavy user flows including onboarding, live collaboration, and multi-step transaction sequences - closely mirroring the demands of simulation-based product environments.
- Built a scalable Figma component library (variants, auto-layout, tokens) used across the full product; reduced design inconsistencies and accelerated engineer handoff via Figma Dev Mode.
- Designed micro-interactions and animated transitions to enhance usability and engagement in dynamic product states.
- Collaborated daily with product managers and engineers in Agile sprints; owned design reviews, iterations, and pixel-accurate delivery.
- Conducted usability reviews based on behavioral insights; iterated on key flows to improve discoverability and task completion.
- Conducted heuristic evaluations and proposed UX improvements across key product flows to enhance overall user experience.

**UI/UX Designer** | XenVeda | Bengaluru Aug 2024 – Nov 2025

**UX Researcher** | Wilson Wings | Remote May 2025 – Jul 2025

**UI/UX Designer** | MBITS Pvt Ltd | Remote May 2025 – Sep 2025

## SELECTED PROJECTS

- SingleTap APP** - B2B AI Marketplace - Designed IA, product flows, and interactive UI for a complex networking and marketplace platform with real-time communication features.
- PayFlow SaaS Dashboard** - B2B analytics dashboard with role-based access, complex data tables, and multi-level filters; reduced cognitive load for non-technical users without losing data depth.
- True Review APP (Case Study)** - Purchase-verified review platform filtering authentic buyer feedback across industries; designed secure in-app messaging system and interactive review filtering for a trust-first, credibility-focused user experience.
- Coffee APP** - Local Discovery & Ordering App - 35+ screens across 8 user flows; focused on reducing decision fatigue during customization and achieving checkout in under 3 taps.
- MS Teams Mobile Redesign (Challenge)** - Solved visual confusion between Personal, Group, and Meeting chats using a 3-Way Identity System - badge placement, intent-based filters, and a missing Groups tab.
