Those standards require that we plan and perform the examination to obtain reasonable assurance about whether management's assertions are fairly stated, in all material respects. The nature, timing, and extent of the procedures selected depend on our judgement, including an assessment of the risks of material misstatement of management's assertions whether due to fraud or error.

In performing our risk assessment, we considered the Company's internal controls relevant to the aforementioned assertions, in order to design procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. Accordingly, we did not test the operating effectiveness of such controls and express no such opinion on such controls.

We believe that the evidence we obtained is sufficient and appropriate to provide a reasonable basis for our opinion.

We direct your attention to the accompanying notes of the Reserve Accounts Report for risks and uncertainties related to cryptocurrencies and background information provided by management. We have not audited, reviewed, or performed any procedures to provide assurance with respect to these notes. Accordingly, we provide no opinion conclusion or any other form of assurance with respect to these accompanying notes to the Reserve Accounts Report.
