MATHS · YEARS 5–7

Fractions in five steps

1. Make the bottoms (denominators) the same.
2. Change the tops to match.
3. Add or subtract the tops only.
4. Simplify: divide top and bottom by the same number.
5. Check: is the answer sensible?

Try: $\frac{1}{3} + \frac{1}{4} =$

Try: $\frac{5}{6} - \frac{1}{4} =$

Try: $\frac{2}{5} + \frac{3}{10} =$
