

Real-Time AI Analytics Powered by Alpha Vision

Join Our **Safer Community Network**

Partner with us in joining the **Safer Community Network** to enhance safety across our community with real-time network analytics.

Why Join?

Our platform helps first responders and law enforcement respond with greater speed and accuracy by using intelligent analytics and live video feed integration.

Instant Crime Alerts

Automatic notifications sent straight to dispatchers.

License Plate Recognition (LPR)

Help law enforcement identify stolen vehicles, suspects, missing persons, and more in seconds.

24/7 Real-Time Monitoring

Keep eyes on your business perimeter, even after hours.

Crime Prevention & Faster Response

Equip first responders with critical information before a situation escalates.

Community Camera Integration

Connect your existing cameras to participating law enforcement agencies at an affordable cost.

**Partner with us in
the fight for a
safer community!**

What Sets Alpha Vision Apart?

Community-first Approach

Serve neighborhoods and public spaces by prioritizing local collaboration.

Flexible, Scalable Deployment

Easily adapts to small properties or large networks and grows as needs expand.

AI-powered Analytics without Complexity

Advanced technology to deliver insights without requiring technical expertise.

Designed for Collaboration, not Replacement

Enhances existing systems instead of replacing current tools or workflows.
