WORK EXPERIENCE

Web & Data Specialist (Freelancer)

Oct 2022 - Present
(2 years, 3 months)

Hyderabad, India

- Provided web development and data analysis services for businesses, enhancing brand visibility and online reach through tailored websites and data-informed strategies.
- Utilized programming languages to develop, deploy, and maintain client websites, ensuring functionality and user engagement.
- Analyzed user data and website performance to refine site strategies.

Social Media Administrator, Data Analyst & Web Developer

May 2024 - Present
(9 months)

Hyderabad, India

- Led the creation and management of multiple websites for Leading High School and its affiliated branches, effectively increasing brand presence and reach.
- Managed student and academic records using Acculekha software, optimizing digital data management for over 5000 students.
- Developed and managed the school's digital profiles, implementing engaging content strategies that resulted in a 10% increase in admissions through improved online presence and search visibility.

EDUCATION

B.C.A, St. Pauls Degree & PG College

2022 - 2025

- Focused on development principles and practices, enhancing skills in programming, management, and web design.

Prompt Engineering, Vanderbilt University (Coursera)

2023 - 2024

- Specialized in crafting prompts for enhanced AI interactions, focusing on improving response quality and user engagement through effective communication strategies.

Diploma in Psychology

August 2024

- Acquired a comprehensive understanding of psychological principles, focusing on human behavior, cognitive processes, and effective communication strategies; studied the DSM-5 for in-depth insights into mental health disorders and diagnostic criteria.

Diploma in Phlebotomy

January 2025

- Gained an in-depth understanding of techniques, procedures; acquired practical knowledge of blood collection, handling, and safety protocols; patient interaction, infection control, and maintaining specimen integrity for accurate diagnostic outcomes.

EXTRACURRICULAR ACTIVITIES

Creator of www.mohammedomer.vip

Sep 2020 - Present

I created this website to help people rely on their opportunities with my expertise.

- Developed a professional portfolio website to showcase services, skills, experience, certifications, and personal motivation, enhancing online visibility and client engagement.
- Designed a comprehensive platform featuring contact information and project highlights, effectively communicating expertise to potential clients and collaborators.

Featured Project

[\(view all projects\)](#)

Chat Llama: Developed a JavaScript-based AI chatbot that interacts with users in real-time using the Meta Llama 3.1 API, enabling dynamic conversations through seamless API integration while ensuring efficient request handling and response generation.
