

VERA CROP

HUMIFOR POWDER 0-0-14

Fully water-soluble humic acid powder

GUARANTEED ANALYSIS

Soluble Potash (K_2O) 14%

Derived from Potassium Hydroxide

ALSO CONTAINS BENEFICIAL SUBSTANCES

Soil Amending Ingredients

Active Ingredients

Humic Acids (derived from leonardite) 68%

Inert (other) Ingredients

Inactive Components of Leonardite 32%

HUMIFOR Powder is a highly concentrated, fully water-soluble humic option for fertigation, seed treatment, technical blends, and high-value specialty crops. It offers the lowest cost per lb of humic acids in the portfolio and helps support efficient delivery where solubility, low use rates and small application volumes matter.

Humic acid content verified using both California Method HA4/JC and ISO 19822 analytical methods.

DIRECTIONS FOR USE

Apply HUMIFOR Powder as part of a soil fertility and conditioning program. Rates vary based on crop, soil conditions, and application method.

STORAGE & HANDLING

Store in a cool, dry place. Protect from freezing and direct sunlight. Do not apply if a heavy rain is expected. Do not apply near water, storm drains, or drainage ditches. Sweep any product that lands on an impervious surface back onto the application area. Only apply to the intended application area.

TABLE

Table 1: Recommended application ranges for dry humic concentrate.

Crop / Use Category	Recommended Rate Range / Area	Applications / Year	Humic Acid Delivered (lb/ac)
Fertigation	1.0–5.0 lb/ac	2–6	0.68–3.40
Specialty crops	3.0–10.0 lb/ac	1–3	2.04–6.80
Orchards	5.0–10.0 lb/ac	2–4	3.40–6.80
Seed Treatment	0.5–2.0 lb/ac equiv.	1	0.34–1.36
Turf and Lawns	5.0–15.0 lb/ac	3–6	3.40–10.20

LIMITED WARRANTY
