Experience

ICICI Lombard — Assoc. Lead Product Designer

August 2024 - Present

- Led the design of an AI-powered CRM experience that combined contextual guidance, lead intelligence, and call insights into a single workflow, reducing projected agent preparation time by 65%.
- Built a no-code product configurator for insurance partner onboarding with white-labelling, live preview, and guided setup, reducing engineering dependency and enabling product launches 3× faster.
- Reimagined the IL TakeCare mobile app identity as part of a larger product refresh, contributing to a 22% increase in app downloads.

Jio Platforms Limited | Product Designer

July 2019 - August 2024

- Partnered with cross-functional teams to redefine product KPIs for Jio.com, contributing to a 25% improvement across key business metrics.
- Shipped more than five digital products across web and mobile experiences serving 15K+ daily active users.
- Designed the JioBusiness enterprise product catalogue for SMEs, attracting 7K+ monthly visitors and improving product discovery.
- Led the end-to-end onboarding experience for the JPW mobile application, integrating DigiLocker into the workflow and creating a solution later adopted across major Jio retail businesses.
- Built reusable UX frameworks and templates that reduced cross-team design effort by 30%, improving consistency and accelerating future releases.

Echostream Design | Design Intern

May 2018 - June 2018

- Conducted market and brand research that informed the positioning of a premium Ahimsa silk brand.
- Created brand identities, visual systems, and marketing collateral for multiple client engagements.
