

Volunteer Reflection

I recently spent a week volunteering in Huatulco, Mexico with Dr Laurie Houston through her charity, CanHelp Through Healthcare. I had the opportunity to work as her dental assistant while we provided dental care to children in a community with limited access to oral healthcare.

It was an incredibly rewarding experience to help kids receive the treatment they needed and to see the difference compassionate care can make. Dr Houston is truly dedicated to helping others, and her passion for serving these communities is inspiring.

I'm very grateful to have been part of this trip and to support the amazing work that CanHelp through Healthcare is doing.

Thank you!
