

REBUILDING TRUST IN GLOBAL GOVERNANCE WORKSHOP SERIES

A Hoffmann Centre × InTent initiative

THE PROGRAMME A Shared Vision: Where Action Starts - InTent at Davos and the Hoffmann Centre for Global Sustainability share a conviction that lasting change requires more than good intentions — it demands credible evidence, trusted dialogue, and sustained engagement between the people who shape global policy and those who study it. The two organisations joined together around one of the defining challenges of our time: the erosion of trust in multilateral institutions, international governance frameworks, and the global cooperation needed to address climate change, biodiversity loss, inequality, and the green transition. This programme a commitment to open dialogue, and a belief that research and practice must work together. The workshop series is an opportunity to deepen that relationship around a question that will define the decade ahead: how do we rebuild the trust that global cooperation depends on?

REBUILDING TRUST

Strengthening Cooperation and Building the Conditions for Enduring Peace

THE WORKSHOP SERIES The Rebuilding Trust in Global Governance Workshop Series is a structured 24-month series of nine expert workshops, each convening senior participants from academia, international organisations, business, civil society and government. Each workshop targets a specific institutional domain where trust is under strain — and where research-backed dialogue can make a difference.

DAVOS

2026-2027 · NINE THEMATIC WORKSHOPS · DAVOS 2027 CAPSTONE

01

WHEN SCIENCE LOSES THE PUBLIC

3 September 2026 · Perle du Lac, Geneva · Held on connection with HCGS Flagship Conference

Workshop on Science - The opening workshop asks a question that has become urgent: science itself—its findings, its methods, its practitioners—is losing public authority. If people no longer trust the evidence, how can it credibly inform policy on climate, nature, and global governance?

02

THE CAPTURE OF TRUSTED DIGITAL PLATFORMS BY AUTOCRATS

8 September 2026 · Geneva · Room A2, Maison de la paix

Ruben Durante, Professor of Economics and Provost's Chair at the National University of Singapore, will present Hijacking Credibility: The Capture of Trusted Digital Platforms by Autocrats.

03

TRUST, RELATIONSHIPS AND WORKING CONDITIONS ALONG SUPPLY CHAINS

17 September 2026 · Geneva · Held in connection with the WTO Public Forum

Workshop on Trade and Development - This workshop examines trust, relationships and working conditions along global supply chains, bringing research and practitioner perspectives into dialogue around trade and development.

04

WORKSHOP ON YOUTH AND EDUCATION

28–29 September 2026 · Geneva · Led by InTent

30 September · Additional session TBC

A workshop focused on the role of youth, education and leadership in rebuilding trust and strengthening the conditions for future cooperation.

05

TRUST IN SUSTAINABLE FINANCE

7 October 2026 · La Terrasse, Geneva

A working dinner examining trust in sustainable finance and the conditions needed to strengthen credible cooperation between finance, research, policy and practice.

COMING IN THE SERIES

- BUSINESS & CORPORATE GOVERNANCE · WORLD ECONOMIC FORUM
- PLANETARY SCIENCE: CLIMATE & NATURE · JOHANN ROCKSTRÖM / GAIL RESEARCH NETWORK
- CIVIL SOCIETY ORGANISATIONS · IUCN & WWF
- MULTILATERAL INSTITUTIONS · ANNALENA BAERBOCK (PROSPECTIVE)
- EUROPEAN GOVERNANCE & INTEGRATION · CEPR
- SWITZERLAND & NATIONAL GOVERNANCE · SWISS FEDERAL GOVERNMENT

LOOKING AHEAD DAVOS 2027

The series culminates at Davos 2027, bringing together its most important findings and practitioner insights at the InTent platform and taking the research arc to one of the world's most influential policy audiences.
