

HUMIFOR PRO

0-0-3

Liquid humic concentrate

GUARANTEED ANALYSIS

Soluble Potash (K_2O) 3%

Derived from Potassium Hydroxide

ALSO CONTAINS BENEFICIAL SUBSTANCES

Humic Acids (derived from leonardite) 13%

HUMIFOR Pro is made for growers who want a concentrated liquid humic product with flexible use across field crops, orchards, turf and specialty applications. It helps support nutrient availability, root-zone activity and overall crop vigor while keeping annual rates practical and easy to build into a fertility program.

Humic acid content verified using both California Method HA4/JC and ISO 19822 analytical methods.

F003884

DIRECTIONS FOR USE

Suitable for drip, sprinkler, or soil application. Compatible with most fertilizer programs. Apply based on soil conditions and agronomic recommendations. Apply during pre-emergence and during vegetative stages in row crops. For horticultural crops, apply throughout the growing season.

STORAGE & HANDLING

Store in a cool, dry place. Protect from freezing and direct sunlight. Agitate before use if settling occurs. Do not apply if a heavy rain is expected. Do not apply near water, storm drains, or drainage ditches or to any impervious surface. Only apply to intended application area. Sweep any product that lands on an impervious surface back onto application area.

TABLE

Table 1: Recommended application ranges for liquid humic concentrate.

Crop / Use Category	Recommended Rate Range / Area	Applications / Year	Humic Acid Delivered (lb/ac)
Basic Crops	1.0-2.0 gal/ac	1-2	1.31-2.63
Field Crops	2.0-3.0 gal/ac	1-3	2.63-3.94
Orchards	2.0-3.0 gal/ac	2-4	2.63-3.94
Turf	1.5-4.0 gal/ac	3-6	1.97-5.26
Special Applications	0.5-0.75 gal/ac	1-4	0.66-0.99
