EDUCATION

North South University — B.Sc. in CSE

Spring 24

I am pursuing Computer Science Engineering, currently in my 3rd semester.

PROJECTS

ReBlogg. — Open-Source Tool Finder Website (ongoing)

ReBlogg is an open source project which holds a directory of useful websites. The main idea is to create a curated list of websites which actually work in their respective fields.

Bloodlink — Blood Donors Linking System (closed)

Bloodlink was an automated system designed to connect willing blood donors with patients in need. The project was discontinued due to time constraints that prevented its completion.
