PROFESSIONAL SUMMARY

Webflow and Framer developer with 4+ years of experience building conversion-focused websites and scalable CMS architectures for startups, SaaS companies, and premium brands. Shipped 38 production templates and 28 reusable component libraries at Flowbase, and now co-runs Ucas Studio and Ucas Templates.

EXPERIENCE

Ucas Studio | Ankara, Turkey (Remote) | Web Development and Design Studio

Co-Founder & Tech Lead

Aug 2022 to Present

- Co-founded a boutique studio delivering websites and digital products for startups and premium brands, with 10+ clients to date.
- Lead end-to-end delivery across discovery, design systems, Webflow and Framer development, and post-launch support.
- Build scalable CMS architectures, reusable component libraries, and conversion-focused landing pages across fintech, SaaS, and B2B.
- Launched Ucas Templates (ucastemplates.com), a Framer template product line with its own storefront, licensing tiers, and automated purchase flow.

Flowbase | Remote (Australia) | No-Code Template Marketplace

Framer & Webflow Developer

Full-Time, Mar 2023 to Mar 2026

Webflow Developer

Part-Time, Jan 2022 to Mar 2023

- Shipped 38 production templates (26 Webflow, 12 Framer), including Flowbase's entire Framer catalogue.
- Built 28 reusable component libraries across both platforms.
- Developed custom React components and integrations for templates requiring functionality beyond standard no-code tooling.
- Built Luna, a free Webflow template with 4,100+ clones on Webflow's Made in Webflow showcase.
