NDT US-Equities Momentum

NDT Capital Partners

A systematic US equity satellite strategy that captures momentum and dynamically adjusts its exposure to changing market conditions.

USM

Advertising per Art. 68 FinSA
Data as of August 31, 2026

Strategy

- **Goal:** A satellite solution complementing existing portfolios through exposure to high-momentum US large-cap equities.
- **Robust framework:** Combines multiple momentum signals across different time horizons into a systematic investment framework.
- **Concentrated Selection:** Up to 15 momentum stocks, systematically rebalanced on a monthly basis.
- **Rotation:** The portfolio dynamically rotates into stocks with a higher probability of outperformance.
- **Dynamic Exposure:** A methodology grounded in financial theory that assesses market conditions and adjusts portfolio exposure between 50–100%.

Note: Implemented as an AMC since 17 Feb 2025. Prior to that, it was traded live on the founders' proprietary trading account from Nov 2024 onward. Earlier performance figures are based on our simulation.

[1] For comparison purposes, a US-Composite which consists of ⅓ SPDR S&P 500 ETF, ⅓ iShares S&P 100 ETF, and ⅓ Invesco QQQ ETF (including dividends) is shown.

Top 5 Holdings

(by weight)

1	Sandisk	6.3%
2	Lumentum	6.3%
3	Crowdstrike	5.9%
4	Micron Technology	5.7%
5	Palo Alto Networks	5.6%

Monthly Insights

In August, the strategy gained 2.3%. The portfolio remained clearly technology-focused but was more broadly diversified across sectors compared with July. New positions, including Bank of New York Mellon and Amcor, broadened diversification into Financials and Consumer Cyclicals, while exposure to Industrials was reduced. Performance was driven mainly by Lumentum, Sandisk and Micron, supported by contributions from cybersecurity names CrowdStrike and Palo Alto Networks. Western Digital, Datadog and Applied Materials weighed on performance.

About Us

NDT Capital Partners is an asset management boutique based in the canton of Zug, founded in 2018. The firm is a member of the Self-Regulatory Organisation (SRO) VQF and registered in the Swiss Client Advisor Register. It specialises in the development of systematic investment strategies.

Its product development approach is grounded in financial theory and supported by quantitative methods. Thanks to its proximity to the University of St.Gallen, the latest academic findings are tested and further developed. The focus lies on simple, robust investment strategies with clearly defined and rule-based logic.

NDT Capital Partners, Startup **University of St.Gallen**.

Disclaimer

This document is advertising material according to Art. 68 FinSA. This publication makes no claim to completeness or correctness. The use of the information is the sole responsibility of the reader. Investors should read the key information in the factsheet and termsheet before investing. Shares in the investment products mentioned in this publication may not be offered, sold or delivered to certain persons or in certain jurisdictions or to persons with connections to certain jurisdictions. Further information can be found in the term sheet. The investment involves substantial risk of loss and is not suitable for all investors. Consider your experience, investment objectives, assets, income and risk appetite before investing in any of our products. There is a possibility that you may lose some or all of your initial investment. You should therefore not speculate, invest or hedge if you cannot afford a loss, have borrowed the capital, need it urgently or the amounts are necessary for your private living or that of your family. You should be aware of all the risks associated with trading and seek the advice of an independent financial adviser if you have any questions. All financial investments carry an element of risk. Therefore, the value of your investment and the income from it will fluctuate and your original investment amount cannot be guaranteed. The value of equities and equity-related securities may be affected by daily price movements on the stock markets. Other factors include political and economic news and major corporate events. Counterparty risk: The insolvency of companies that assume custody of assets or act as counterparties for derivatives or other instruments may expose the strategy to losses. The figures shown relate to past performance. Past performance is not a reliable indicator of future performance and should not be the sole factor in selecting a product or investment strategy. The simulated performance is shown in the currency shown in the product details table and adjusted for trading fees, issuer's fee, management fee and performance fee. The key figures were calculated on the basis of daily prices. Due to currency fluctuations, your return may be higher or lower if you invest in a currency other than the one in which the performance was calculated. Investments in securities are subject to non-existent or loss of protection of intellectual property rights, rapid technological changes, regulatory changes and changing competition.
