

How to Change Password for your Laptop!

Tutorials are based on the latest version of that computer's software. Please note that the pages referenced may look different depending on your operating system. Please contact our support team for more assistance!

On a Windows Device:

Open "Settings" by clicking the Windows Key and typing "Settings".

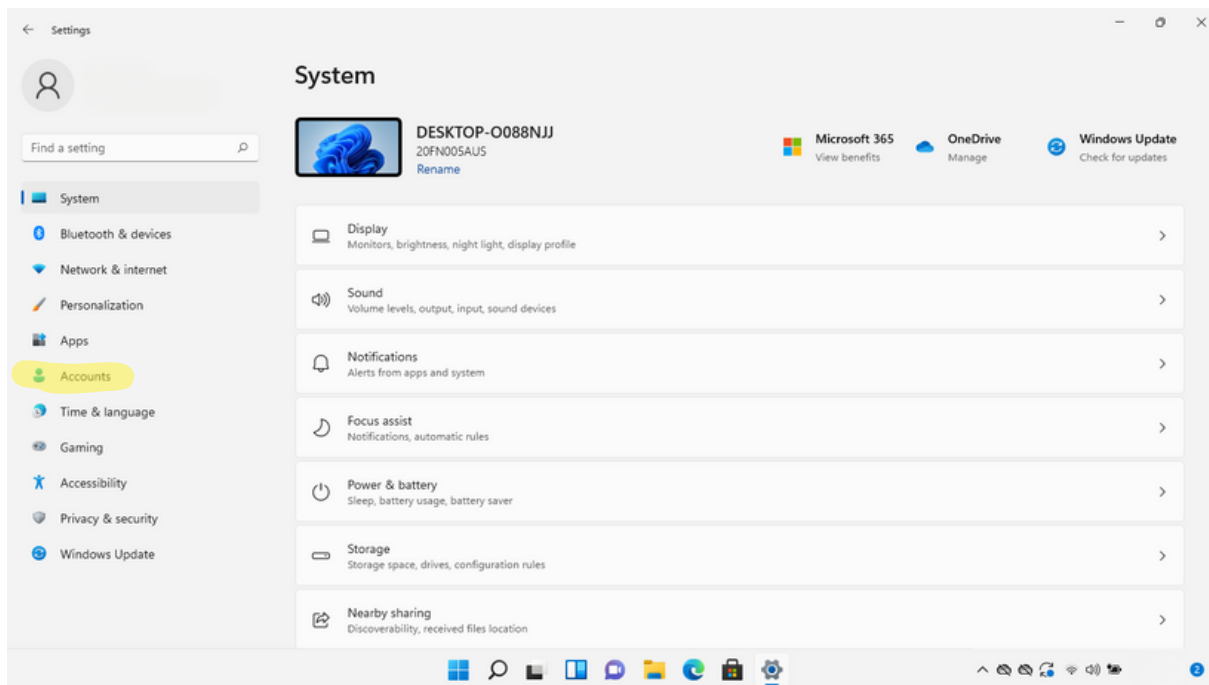

Navigate to "Accounts" and select "Sign-In Options"

From this page you can choose how to set a password. The default password from Task Troopers is a PIN and should be changed. You can also set a Password (Alpha-Numeric) and on some devices Windows Hello (Fingerprint or Face Authentication).

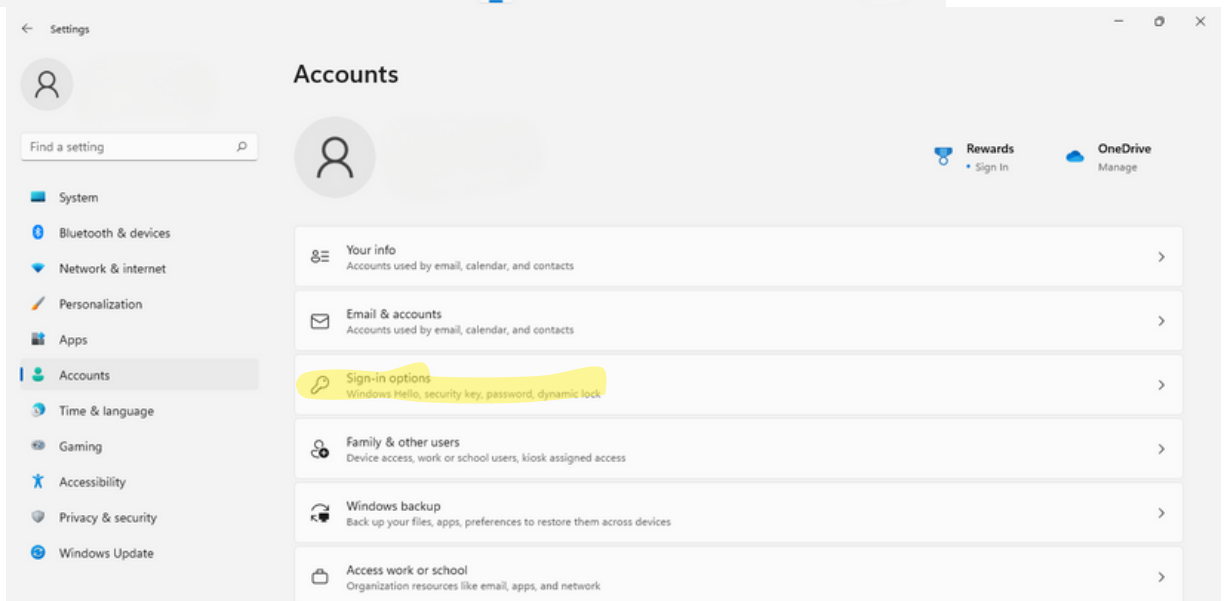

Use the images below to help guide you!

Keep scrolling for a guide for [Apple \(MAC\) Computers](#)

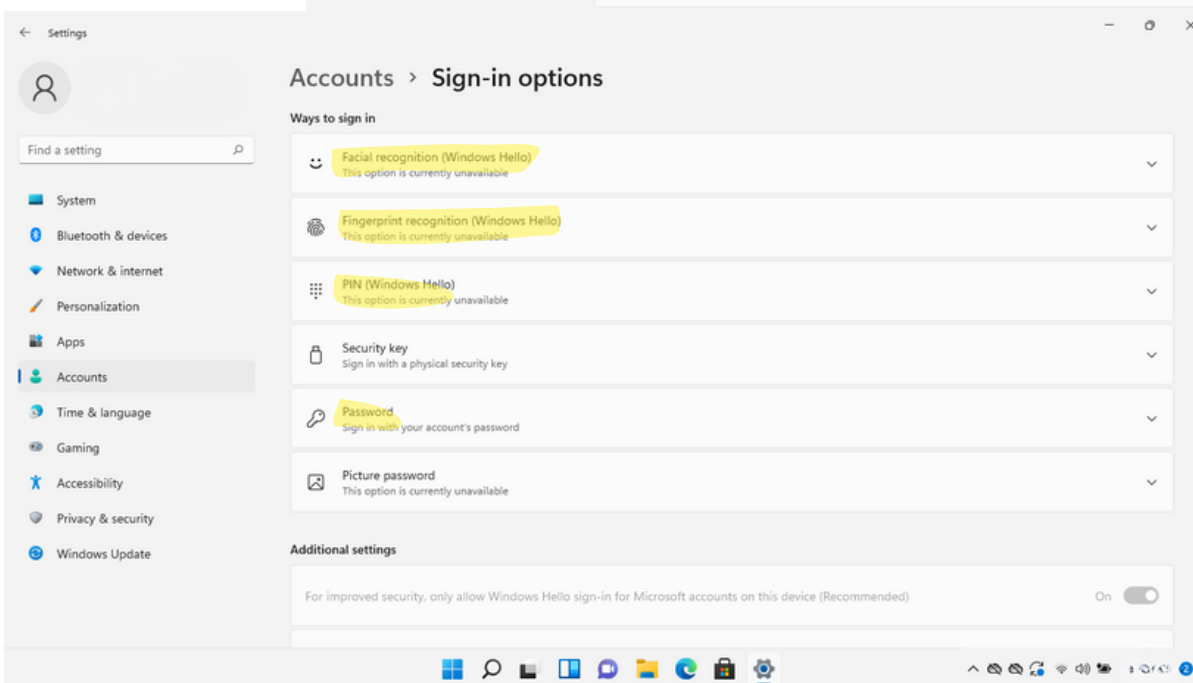

Click
"Accounts"

Click
"Sign-In
Options"

Choose one
or more sign-in
options! Make
sure to reset
the PIN from
Task Troopers.

How to Change Password for your Laptop!

Tutorials are based on the latest version of that computer's software. Please note that the pages referenced may look different depending on your operating system. Please contact our support team for more assistance!

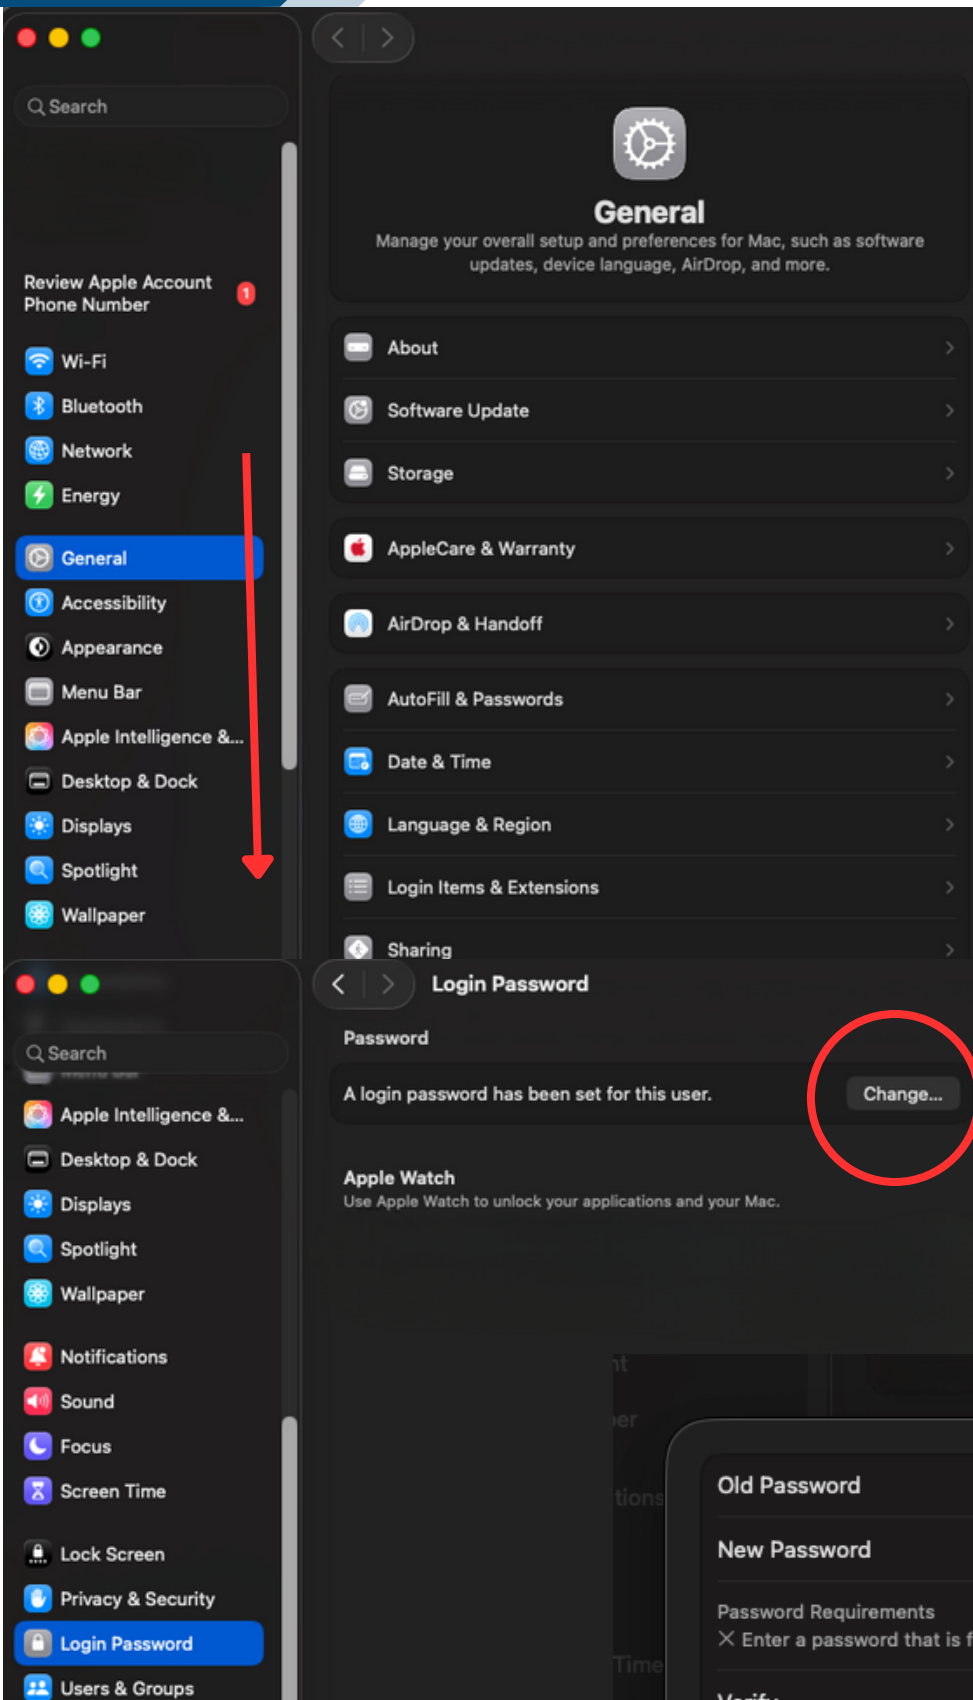

On a MAC/Apple Device:

Open "System Settings" by clicking the Gear Icon on the bottom "App Tray"

Navigate to "Login Password" and select "Change". Enter your new password and an optional hint. That's it!

Use the images below to help guide you!

Scroll down to find “Login Password” Section.

Select “Change” and enter the requested information. Remember, your OLD PASSWORD is likely the one assigned by Task Troopers!
