

Faster billing. Less rework.

With ZeKju Documents_AI

Instant & Accurate Documents

Capture and process documents in real time with AI-powered validation and correction – directly via the driver's messenger.

Easy for Carriers

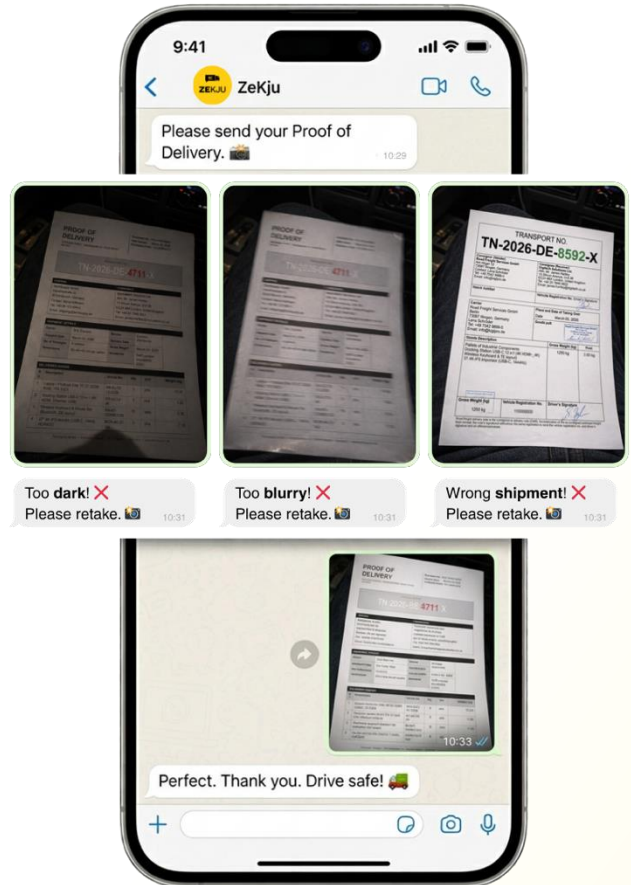

A carrier portal that covers easy uploads, AI-based quality checks, and automated reminders for missing documents.

Faster, Seamless Accounting

Accelerate accounting workflows with automated completeness checks, AI-driven document validation, and intelligent re-collection of missing paperwork.

Seamless Integration

Easily integrate into existing document management systems or TMS via robust APIs – ensuring smooth, end-to-end connectivity.

WHAT OUR CUSTOMERS SAY

"We can invoice up to 10 days faster by receiving complete and accurate documents instantly in our system."

- Head of Finance

"Instant AI feedback removes the need for constant document corrections—saving time for us and our carriers."

- Freight Accountant

How it works:

Driver (Own, Subcontractor)

- Using a Messenger (  )
- No additional app or registration
- Transport workflow provides context for document upload
- AI feedback on document quality in <5 seconds

Dispatcher (Subcontractor)

- Carrier portal available in multiple languages
- Simple documents upload for each transport
- Instant AI feedback and reupload loop in case of issues

Freight Accounting (Your Team)

- Customizable Document cockpit incl. Tagging, In-string search, etc.
- Overview of AI check results
- Automated completeness checks at transport level, handling also multi-document files (e.g. POD, pallet slip, CMR in a one PDF file)

Coverage

Use ZeKju for all Transport documents:

- Proof-of-Delivery (POD)
- Pallet Slip
- CMR (eCMR enabled)
- Damage Pictures
- etc.

Integration

Powerful API Connectivity

Flexible connectivity via REST APIs and ZeKju tooling - built to fit your existing Document and Transport Management Systems.

Integration

Real Savings

Up to €75,000 in time savings and €15,000 in interest gains for a freight forwarder handling 1,000 transports per month
