With over 12 years of design experience, I'm passionate about transforming complex problems into elegant and functional user experiences (UX) that delight users and stakeholders. My background spans design strategy, interaction design, team management, and Figma. I've successfully delivered large-scale platform experiences for a diverse range of clients, including AssureCare LLC in the healthcare industry, Xoxoday, Binary Fountain, and Pocket52 across various sectors. I consistently seek to learn new design tools, trends, and best practices to elevate my projects. My ultimate goal is to design products that not only boast a beautiful aesthetic but also make a positive impact on people's lives and well-being.

Experience

Freelance / Consulting Product Design

March 2024 - Present | Bengaluru, India

Echo — HRMS & Employee Engagement SaaS

Founding Product Designer

- Designed end-to-end HRMS workflows focused on employee engagement, rewards, surveys, feedback, and internal communication systems.
 - Built scalable design systems and reusable UI frameworks to accelerate product development and maintain consistency across platforms.
 - Designed AI-assisted workflows and automation experiences to simplify HR operations and improve employee experience.
-

AssureCare LLC — Healthcare Platform

Consulting Head of Product Design

- Continued strategic design leadership for healthcare management and population health platforms.
 - Collaborated with product, engineering, and healthcare stakeholders to improve enterprise healthcare workflows and usability.
 - Mentored global design teams and contributed to long-term UX modernization initiatives.
-

DocketAI — AI Productivity Platform

Product Design Consultant

- Designed AI-powered workflow experiences and conversational interfaces for enterprise productivity use cases.
 - Created intuitive user journeys for automation-driven task management systems.
-

Leadlytics — Sales Analytics SaaS

Lead Product Designer

- Designed data visualization dashboards and reporting workflows focused on usability, clarity, and actionable insights.
 - Improved information architecture and user flows for enterprise sales intelligence platforms.
-

Xoxoday — Employee Engagement Platform

Design Consultant

- Enhanced enterprise engagement and rewards experiences through scalable UX improvements.
 - Collaborated with teams to improve platform usability and consistency.
-
