PORTFOLIO UPDATE

During June 2026, the Fund's NAV appreciated by 0.15%, bringing year-to-date returns to 2.40%, as credit fundamentals assert over Iran conflict issue.

The portfolio is well diversified across high-quality holdings with less than 5% exposure to Middle East. The Target Return Fund structure provides an inherent and progressive resilience: the declining maturity profile naturally reduces duration and spread sensitivity over time, independent of interim market dislocations.
